

HiLine Resource Management Plan Interagency Team Meeting Schedule

No interagency team meetings are currently scheduled.

The State of Montana and several counties and cooperative state grazing districts are working as cooperating agencies during the preparation of the HiLine Resource Management Plan.

Regularly scheduled interagency team meetings that involve the State of Montana are subject to the Montana "Open Meeting" law. As such, the public has every right to attend and listen to the proceedings during these interagency team meetings.

The BLM will abide by these procedures during all regularly scheduled interagency team meetings:

- 1) Whenever possible, meeting dates, times and locations will be posted at least two weeks prior to planned meetings on our web site at http://www.blm.gov/mt/st/en/fo/malta_field_office/rmp.html.
- 2) Any interested stakeholder can attend these meetings in a listening capacity only.
- 3) The ability to actively participate through discussion in these work sessions is reserved for team members and cooperating agencies.
- 4) These guidelines shall apply throughout the meeting day (including breaks and lunch).
