

Spot Fire

Location:		Date:	
Module:		Reviewed by:	
Drill Parameters	The drill evaluator will simulate a spot fire requiring initial attack action. This drill can be done in conjunction with other drills.		
Performance Expectation	A team of 3 or more firefighters will locate, suppress, and properly mark a spot fire.		
Equipment	PPE and line gear.		
Key Code: E = Exceeds Standard M = Meets Standard NI = Needs Improvement			
	Task	Code	Remarks
1.	A firefighter is clearly given the team leader position of the spot fire suppression team.		
2.	Personnel are clearly assigned to the team and know who is in charge.		
3.	The team leader uses a proper approach path, has mitigated LCES and has communicated these items to the team.		
4.	When on site, the team leader: a. Sizes up the fire. b. Gives a crew briefing from the IRPG. c. Uses the IRPG to report on conditions to the proper supervisor.		a. b. c.
5.	The team leader use sound basic suppression techniques and has a contingency plan.		
6.	The team leader updates this plan, and informs the team and supervisors of changes as needed thru out the assignment.		
7.	The team uses their tools in a safe and proper manner with all PPE in place.		
8.	When the team leaves the spot they properly mark access, notify their supervisor and maintain LCES as they walk back to the main fire.
