

Helitack/Longline

Location:		Date:	
Module:		Reviewed by:	
Drill Parameters	Module members will demonstrate proficiency in deploying longline hardware and preparing cargo loads for external transport by helicopter. Will build cargo sling loads, use proper hardware configurations to attach loads to both belly hooks and longline/remote hooks utilizing standard <i>IHOG</i> procedures.		
Performance Expectation	Given miscellaneous cargo, properly rig for external load transport in both short and longline configuration.		
Equipment	The firefighter should be equipped with their PPE and personal line gear.		
Key Code: E = Exceeds Standard M = Meets Standard NI = Needs Improvement			
	Task	Code	Remarks
1.	Inspect hardware: nets, swivels, longline, hooks, etc.		
2.	Configuration of rigging meets agency standards.		
3.	Proper weight distribution of loads and closure of nets.		
4.	Proper placement of lines in front of helicopter.		
5.	Cargo hook electrical and manual release tests.		
6.	Pilot approvals.		
7.	Load is manifested and within allowable payload.		
8.	Proper hand signals utilized.
