

Helitack/Bucket - Fixed Tank Operations

Location:		Date:	
Module:		Reviewed by:	
Drill Parameters	Module members will remove the bucket/snorkel from its storage location and attach it to the aircraft for suppression operations. With the pilot, module members will test the functionality of the bucket/tank mechanisms.		
Performance Expectation	The helitack crewmember will demonstrate proper deployment of the helicopter bucket, attachment to the helicopter and functional testing.		
Equipment	The firefighter should be equipped with their PPE and personal line gear.		
Key Code: E = Exceeds Standard M = Meets Standard NI = Needs Improvement			
	Task	Code	Remarks
1.	Attach a bucket or snorkel to helicopter.		
2.	Properly complete required electrical connections.		
3.	Suspension lines not tangled; not positioned over landing gear.		
4.	Test bucket/snorkel mechanisms with pilot.
