

### Portable Pump Exercise

<b>Location:</b>		<b>Date:</b>	
<b>Module:</b>		<b>Reviewed by:</b>	
<b>Drill Parameters</b>	The drill evaluator will assign firefighters the assignment of establishing a pumping operation. The drill will consist of establishing a draft site. The pump site will be established within the environmental guidelines for water courses and the hose lay will include backflow protection devices and a cooling by-pass.		
<b>Performance Expectation</b>	To evaluate the crew's ability to establish, maintain, and regulate a pump operation. Review the crew's knowledge of the environmental concern related to pump operations in a stream course.		
<b>Equipment</b>	Pumps of the type and kind found on the unit.		
<b>Key Code: E = Exceeds Standard M = Meets Standard NI = Needs Improvement</b>			
	<b>Task</b>	<b>Code</b>	<b>Remarks</b>
1.	Firefighter uses the required PPE for the position.		
2.	Pump Operations: a. Establish a containment catch around the pump b. Establish a draft c. Install back flow device d. Install cooling line e. Regulate pump pressure	a. b. c. d. e.	
3.	Firefighter is familiar with the proper usage of the items found in the local pump support kit.		
4.	Firefighter is familiar with the proper mix ratio for the various pumps on the local unit.		
5.	Firefighter is familiar with the proper procedures involved in the transportation of pump fuel.		
6.	Firefighter at pump has communications with crew.
