

CHAPTER 3: BLM-SPECIFIC REQUIREMENTS AND POSITIONS SUPPLEMENTAL TO PMS 310-1

POLICY

The BLM is responsible for developing and maintaining employees who will implement all aspects of the BLM's fire management program. The BLM utilizes NWCG interagency qualification and certification standards, which outline minimum training, experience, and physical fitness requirements to meet this goal. When necessary, the Bureau will augment interagency standards to include BLM-specific wildland fire positions. These positions are necessary due to Bureau requirements for training, experience, and physical fitness which differ slightly from interagency standards. BLM-specific positions are established in order to meet Bureau-specific fire management goals.

As a supplement to the *NWCG NIIMS Wildland Fire Qualification System Guide* (PMS 310-1) (<http://www.nwcg.gov/pms/docs/docs.htm>), the BLM has identified additional positions to support the fire program such as Prescribed Fire Burn Boss 3 (RXB3), Engine Operator (ENOP), Chainsaw Operators and Fallers. The BLM has also added some additional training requirements to some of the ICS and wildland fire skill positions.

The Incident Qualifications and Certification Card (Red Card) will have a 12-month currency from the date the card is issued.

TRAINING AND QUALIFICATIONS SPECIFIC TO INCIDENT POSITIONS

ENGINE CREW PERSONNEL

ENGINE CAPTAIN

These position requirements are BLM-specific. The position is not found within the 310-1.

Required Training

Basic ICS (I-200)

Initial Attack Incident Commander (S-200)

Fire Operations in the Wildland/Urban Interface (S-215)

Crew Boss (Single Resource) (S-230)

Engine Boss (Single Resource) (S-231)

Ignition Operations (S-234)

Interagency Incident Business Management (S-260)

Basic Air Operations (S-270)

Intermediate Wildland Fire Behavior (S-290)

BLM Engine Driver Refresher (annually; IQCS Number: RT-301)

Plus all required training listed for the following positions:

[Engine Operator \(ENOP\)](#)

[Engine Crewmember](#)

PTB Requirement

Faller Class A, B, C (BLM-approved)—Minimum Faller A portion

<http://www.nwcg.gov/pms/taskbook-agency/index.htm>

Certification Process

- Agency Administrator (or delegate) certification of qualifications after verification that training is successfully completed.
- Documentation must be maintained for individuals.
- BLM has established the following minimum qualification and certification process for Chainsaw Operators:
 - The individual tasks required for completion of the “A” Task Book and the final certification for the “A” level saw operators must be certified by a qualified “B or C” level saw operator.
 - The individual tasks required for completion of the “B” Task Book must be evaluated by a qualified “B” or “C” level operator. The Final Evaluator Verification for “B” level operators must be signed by a “C” level saw operator.
 - The individual tasks required for completion of the “C” Task Book must be evaluated by a qualified “C” level operator. The Final Evaluator Verification for “C” level operators must be signed by a state approved “C” level certifier.
 - Each of the states/regions will certify and maintain a list of their current “C” class saw operators who they approve to be “C” class certifiers.
 - The certification of “C” class certifiers will remain the responsibility of the agency administrator or delegate.
 - For non-fire saw operators a five year currency for all levels of chainsaw operators will be maintained by documented field operations.
 - All fire related (red carded) saw operation qualifications are maintained through the IQCS system and will have a currency of five years.

DOZER OPERATOR

These position requirements are BLM-specific. The position is not found within the 310-1.

Required Training

Introduction to ICS (I-100)
Firefighting Training (S-130)

TRAINING AND QUALIFICATIONS SPECIFIC TO PRESCRIBED FIRE POSITIONS

The BLM follows the [NWCG Wildland Fire Qualifications System Guide \(PMS 310-1\)](#) and the *Interagency Prescribed Fire Planning and Implementation Procedures Guide* (http://www.nifc.gov/fire_policy/rx/rxfireguide.pdf) in dealing with prescribed fire qualifications, certification, and fitness standards. With some of the positions, the BLM has added additional requirements and defined the fitness standards. The BLM has also added a few new positions which are Bureau-specific.

Historical Reference: Over time, several changes have been made to the position that controls ignition/firing/burning operations on wildland fires. The BLM has gone from Ignition Specialist 1 and 2 (RXI1, RXI2) and Firing Boss (FIRB) to just a Firing Boss (FIRB). As of October 3, 2007, the BLM endorses two positions in this arena—Firing Boss (FIRB) and Firing Leader (FIRL). For further information on these changes, refer to *FA IM-2010-009* at <http://web.blm.gov/internal/fire/Directives/IM2010/FAIM2010009.pdf>, [Attachment 1](#).

PRESCRIBED FIRE PLAN PREPARER

These position requirements are BLM-specific. The position is not found within the 310-1.

The Prescribed Fire Plan Preparer is responsible for preparing the Prescribed Fire Plan. The Prescribed Fire Plan Preparer may have other personnel assist in preparing the plan, but is responsible for the final plan content. The primary preparer of the Prescribed Fire Plan will sign the signature page.

PRESCRIBED FIRE TECHNICAL REVIEWER

These position requirements are BLM-specific. The position is not found within the 310-1.

For prescribed fire projects rated Complex—those projects requiring an RXB1—the technical reviewer must be qualified as, or previously qualified at, the RXB1 level. For those Prescribed Fire Plans rated Moderate or Low, the technical reviewer must be qualified as, or have been previously qualified at, the RXB2 level. If a Field Office cannot complete its own technical review, the State Office will ensure that a technical review is completed by a qualified person. A primary reviewer will be designated; however, other specialists may review specific portions of the Prescribed Fire Plan. For example, a Fire Behavior Analyst may review the fire behavior calculations or the Aviation Officer may review the Air Operations Plan.
