Complete: For acquisition projects, completed includes properties that have been purchased and the deed to the United States has been recorded. In some cases, final title acceptance and/or the completion of reimbursements is pending. For all other projects, completed indicates that the physical work has been completed; however, in some cases not all financial transactions are complete.

In Process: Projects in process may be in any of the following stages: Approved but pending activity until funding becomes available in the Special Account; Funds have been obligated and a reimbursable account has been set-up; Placed On-Hold to resolve unanticipated issues or complications associated with carrying out the acquisition/project.

Terminated: Acquisitions may be terminated due to valuation issues and unacceptable property or title issues. Failure to adhere to the timeline required for commencing approved projects and acquisition projects, among other factors, may also result in the termination of a project.
