Description:

Abstract: This data represents the BLM district and field office boundaries within the state of Nevada. Polygons have been labeled with the Field Office name and identification number.

Purpose: This layer is intended to be used as a supplemental layer representing the district and field office

Supplemental_Information: The data represented in this feature data set originated from compiled from old resources area boundaries and proposed district and field office boundaries.

Process_Description: The field office boundaries represented by this coverage were created in ARC/INFO. The boundary lines for this blmdist coverage were copied from existing county and other boundary lines, which share a common boundary lines with the BLM field office boundaries. The blmdist coverage was created using this collection of existing boundary lines.

Process_Step:

Process_Description: Boundaries were update. Only major change was inclusion of the entire Black Rock/High Rock National Conservation Area into the Winnemucca District.

Process_Date: 2008/08/01

Process_Step:

Process_Description: Alterations made to the line data around the Nellis Bombing Range and between the Battle Mountain and Ely districts from the north end of the bombing range up to the Diamond Range. The lines were snapped to geographic coordinate data base or the county lines depending on what they should be following. Some alterations of the district boundary lines between the Southern Nevada and the Ely district were based on a decision by the associate state director.
