Until Kane County stops it's outright flouting of the law, I intend to fully boycott economic support for Kane County. If I visit any national parks or monuments in the area I will engage in no act of commerce in the county to benefit it, including purchasing any food or other commodities, gas, or lodging in the county. I live in Colorado and have visited Southern Utah many a time; thus, this is not an idle threat. I also intend to inform all my friends, family and co-workers of Kane County's actions in this matter. These actions clearly Kane County is an arrogant entity that believes it is above the law.
