

## Proposal to Lease

Approximately 136,226.07 acres of public lands (90 parcels) generally available for oil and gas leasing under Bureau of Land Management (BLM) land use plans were considered for the oil and gas lease sale scheduled to be held on February 23, 2010.

Based on findings, determinations, and recommendations from the BLM, Utah Field Office Managers, I am proposing to offer approximately 4,401.64 acres on 4 parcels of BLM-administered lands with appropriate conditions and stipulations.

The lands to be offered are identified by serial and parcel number on the Final February 2010 Oil and Gas Lease Sale List, which identifies the specific conditions, terms, stipulations and notices applicable to each parcel.

All of the parcels have been reviewed to determine if existing planning and NEPA documents adequately address the issues and environmental consequences of leasing at this time. My proposal to offer parcels in the Cedar City and Fillmore Field Offices is based on the findings and recommendations made in the relevant field offices' Determinations of NEPA Adequacy (DNAs).
