

Proposal to Lease

Approximately 42,091.82 acres of public lands (27 parcels) generally available for oil and gas leasing under Bureau of Land Management (BLM) land use plans were considered for the oil and gas lease sale scheduled to be held on November 17, 2009.

Based on findings, determinations, and recommendations from the BLM, Utah Field Office Managers, I am proposing to offer approximately 28,548.59 acres on 20 parcels of BLM-administered lands with appropriate conditions and stipulations.

The lands to be offered are identified by serial and parcel number on the Final November 2009 Oil and Gas Lease Sale List, which identifies the specific conditions, terms, stipulations and notices applicable to each parcel.

All of the parcels have been reviewed to determine if existing planning and NEPA documents adequately address the issues and environmental consequences of leasing at this time. My proposal to offer parcels in the Moab, Price and Vernal Field Offices is based on the findings and recommendations made in the relevant field offices' Determinations of NEPA Adequacy (DNAs).
