Subject

Reduce Herbicide Use

Dear BLM,

I am an organic gardener in a small community garden in Fair Oaks, CA. I believe there are better ways to control invasive plant problems including prevention. Please do not use herbicides for anything, let alone for eradication of invasive plants. Instead, I urge you to adopt strong prevention-based practices so that invasive plants are not introduced into our precious open space you are entrusted to manage.

1

2

It is your responsibility to manage the land trusted to your care. Please make a commitment to all of us to reduce the amount of herbicides used. Do not increase the amount from what is already used.

3

Sincerely,

Ruth A. Elliott
