

WYOMING SENATE

April 4, 2007

Matt Anderson
BLM Field Office
P.O. Box 758
Pinedale, WY 82941

By e-mail: WYMail_PAPA_YRA@blm.gov

Dear Mr. Anderson,

I have been asked by Questar to comment on the proposed Alternative B, the Operator's Proposed action, on the Pinedale Anticline development.

I am a realist; I appreciate that development must and will occur in southwestern Wyoming. My goal is to obtain the "best deal" for Wyoming and its citizens. My hope is that our resources, land, water, air and economic opportunities, outside of all mineral development, will be protected to the greatest extent possible.

G-1
SA-14-1

I would ask that you recognize the impact of the disturbance and the loss of a finite resource when making your decisions. To the extent that this plan meets those goals and is a sincere attempt at compromise I ask that it be favorably considered.

Sincerely,

Senator E. Jayne Mockler
