

Table 8. Estimated oil and gas (excluding coalbed natural gas) development potential classification acres, number of townships, projected average drilling densities, and percentage of the Lander Planning Area within each development potential classification type for the period 2008 through 2027.

Development Potential	Acres (thousands)	Area (townships)	Average new wells per township	% of Planning Area
High	149,149	6.47	110	2.30
Moderate	489,672	21.25	60	7.55
Low	1,279,711	55.54	10	19.73
Very Low	2,115,652	91.83	0.25	32.61
None	1,943,891	84.37	0.0	29.97
Not Assessed	508,759	22.08	0.0	7.84
