- /n/ Colville Indian Nation

**Table 1-7. CADASTRAL SURVEY ACTIONS COMPLETED, FISCAL YEAR 2002 – concluded**

/o/	Quinault Indian Nation
/p/	Spokane Indian Nation
/q/	The Geographic Coordinate Date Base (GCDB) involves the computation of coordinates, in latitude and longitude, for corners of the Public Land Survey system and is intended for use in a land or geographic information system, not for boundary determination.
/r/	Townships for which all coordinate data has been computed.
/s/	Geographic Information System (GIS) validated refers to townships that have the entire GCDB process completed and have been submitted for posting on the Land Survey Information National Homepage ( <a href="http://www.geocommunicator.gov/lsi/">http://www.geocommunicator.gov/lsi/</a> ).
/t/	Alaska is collecting digital information in a different format. Alaska's progress is included with GCDB for reporting purposes.
/u/	Eastern States is not included in the totals. Eastern States primarily dedicates time to provide training and technical assistance to other organizations in their data collection efforts.
/v/	This cumulative total decreased from last year's because of a revision in Alaska's previous totals.
/w/	This figure increased because of an increase in Alaska's reported total.
/x/	This column has been changed to reflect "GIS validated" townships (rather than "LLD linked" townships), so figures cannot be directly compared with previous years.
