

**Description:**

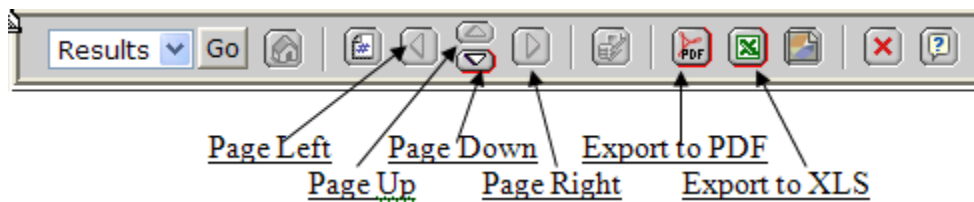

The Bureau publishes the Public Land Statistics (PLS) report yearly. This report produces the grazing statistics needed for that publication. This report consists of a count of each authorization (by type), a sum of Animal Unit Months (AUMs) authorized for various livestock kind and a sum of active and suspended AUMs

**Procedure:**

- Click "Run Reports"
- Choose "Public Land Statistics"
- Type the office code or office name in the search box or scroll through the list of offices. Move the mouse pointer over the office you wish to select and click on the office in the "Choose Office" list box. The office will appear in the "Selected Office" box. Select "Year" from the year drop down box. Select "Year Type". The user is given the option of fiscal, billing, or calendar year.
- Click on "Submit".

If you chose to run a report for the current year, the data returned is only valid up to the "Report Date".

(A) Yearling cattle are also included in this column.

(B) This is not a sum of the authorizations. It is a count of the authorizations, regardless of livestock kind. Some permittees have more than one kind of livestock and are represented in more than one livestock kind column. They are counted only once in this column.

(C) Active AUMs (animal unit month) is the preference amount BLM offers for use under grazing permits and leases. Active AUMs totals usually do not match Authorized AUMs totals due to annual fluctuations in livestock numbers.

(D) Suspended AUMs (animal unit month) is the preference amount withheld from active use. Suspended AUMs are not currently authorized for use. BLM may reinstate suspended AUMs as warranted in accordance with 43 CFR 4110.3-1(b).
