

Proposed Coeur d'Alene Resource Management Plan and Final Environmental Impact Statement

1. **Responsible Agency:** United States Department of the Interior
Bureau of Land Management
2. **Type of Action:** Administrative (X) Legislative ()
3. **Document Status:** Draft () Final (X)
4. **Abstract:** This Proposed Resource Management Plan and Final Environmental Impact Statement describes and analyzes four alternatives for managing the public lands and resources administered by the Bureau of Land Management's Coeur d'Alene Field Office, located in northern Idaho, in Benewah, Bonner, Boundary, Kootenai, and Shoshone Counties. The plan alternatives are: Alternative A (the "no action" alternative or continuation of current management); Alternative B (commodity/utility emphasis); Alternative C (minimal active management/preservation emphasis); and Alternative D (the proposed Action). Planning issues addressed include: opportunities for motorized and nonmotorized recreation (travel management); protecting resources while providing forest products and restoring forest health; protecting people and property from wildfire; adjusting land ownership; controlling invasive species and noxious weeds; and restoring healthy watersheds and riparian habitat. The alternatives also address designation of areas of critical environmental concern (ACECs) and Wild and Scenic River suitability findings.
5. **Protest period:** The protest period on the Proposed Coeur d'Alene Resource Management Plan and Final Environmental Impact Statement is 30 calendar days. The protest period begins when the Environmental Protection Agency publishes a Notice of Availability in the *Federal Register*.
