

November 25, 2011

I'm not in favor of the shutting down of the BLM land on the southwest side in and near Tonopah, AZ. I own several horses which I find enjoyable to ride in the desert and if this plan is to also include them, then I will be with the rest and fight this. Why don't you set aside an area where they who shoot their guns can, instead of making us all pay? I'm all for keeping the desert clean and in its natural surroundings and I'm not a hunter nor a shooter so including the horses in this plan takes away from the love of our animals and the freedom to be able to roam and or right to ride. *I'm for Alternative B.*
