Subject: Sonoran Desert

My name is [REDACTED] and I have lived in Casa Grande, right in the middle of the desert for over 50 years, and have a house on a 4 acre parcel in the desert, because we love the environment, its wildlife and silence, subtle seasons and surprises. Like the time after a wet spring I found deer tracks on my property. I would hope as little access as possible be afforded to the monument, other than on foot, horseback, bicycles, motorized vehicles on established and maintained roads. I am not a hunter; I don't want people shooting around me when I go out to enjoy the silence of nature. We have to do all we can to keep as much of the desert natural and untouched, we are just visitors here, temporarily, and the desert is so fragile it needs to be left alone for our future generations. Thanks for my chance for input. [REDACTED]
