Subject: why do you discriminate against Mac computers?

"Adobe Acrobat Reader is necessary to view PDF versions of documents.
This free plug-in for your browser will allow you to view PDFs.

Interactive documents work best in Microsoft Internet Explorer version 7.0 and higher. Please set your text size under the "View" menu to Medium. You may also want to change your screen resolution to approximately 1150 X 860. This will enhance the quality of what you see on the screen.

Firefox, Safari, Chrome, and other browsers will not work properly with the ePlanning commenting form."

There hasn't been a version of Microsoft Internet Explorer for Mac computers for many years now so why do you require the use of IE7 to comment on plans? I was planning on commenting on "Lower Sonoran and Sonoran Desert National Monument Draft Resource Management Plan and Environmental Impact Statement (DRMP/EIS)" at this link <https://www.blm.gov/epl-front-office/eplanning/planAndProjectSite.do?methodName=renderDefaultPlanOrProjectSite&projectId=11856&dctmId=0b0003e8800a9942>

PLEASE do not assume that everyone uses a Windows PC and has IE7 - many of us prefer and use better computers and software.
