Please allow me to comment on the proposed shooting restrictions on the Lower Sonoran and Sonoran Monument Desert National Monument. I am very concerned at the proposed restrictions and feel that these restrictions concerning the discharging of firearms is totally unnecessary. One of the privileges that we enjoy living in Arizona, is the vast amount of public land available to recreational shooting, hunting, and enjoyment. Please do not allow these restrictions to take place and allow our law-abiding citizens the rights that our preceding generations enjoyed.

Respectfully,
