**Subject:** In Support of San Tan Mountain Regional Park

Dear Ms. Garber-

This letter is in support of saving San Tan Mountain Regional Park.

My husband and I have been volunteers there for the last year. We have also served on the Board of Friends of the San Tan Mountain Regional Park for this last year. These are simply volunteer positions and are not paid in any way. Many people volunteer at the park and help to keep this beautiful jewel running.

We love the park and my husband and I even bought our property down the road from the Park because we love the San Tan Mountain Regional Park so much.

Please support saving this lovely park for the Queen Creek area, and for those of us who live in Pinal County who need this oasis of nature as we are being surrounded by development.

So many times, folks think that there will always be the desert but if we don't care for it and save it from development, this desert and Park will not exist for the generations to come.

We moved to the country to live in the country and to have the wildlife and the nature here surround us. If we allow this beautiful Park to be sold, this lovely part of nature and the wildlife who reside there will be lost to all of us forever.

Having spent years as a Social Worker and many years working in the school system, I have learned how important the outdoors is to all of us, especially for the children who so often don't get to experience or enjoy nature.

Save San Tan Mountain Regional Park please - for all of us.

Thank you,
