Our Vision for San Tan Mountain Regional Park

Friends of the San Tan Mountain Regional Park: Mission Statement

The mission of the Friends of the San Tan Mountain Regional Park is to help provide recreational and educational opportunities appropriate to a Sonoran Desert mountain park setting, while rehabilitating, protecting, and responding to the unique cultural and natural resources of the Park.

Our Vision for San Tan Mountain Regional Park

San Tan Mountain Regional Park has become synonymous with the Queen Creek/San Tan Valley area. The attendance at San Tan Mountain Regional Park has doubled every year for the last three years and provides recreational and educational programs to the areas population of over 100,000 people. This number does not include the families that drive from Mesa, Gilbert and farther to enjoy our Sonoran Park setting.

San Tan Mountain Regional Park can be a big economic driver in this area where economic drivers are sparse at best. To lose this Park would be to stifle growth, opportunity and a viable local option where families to reap the health and educational benefits associated with San Tan Mountain Regional Park

The Park Staff creates programs that our Friends volunteer group assist on which promote a healthy and active family lifestyle. It's about building community and this is what San Tan Mountain Regional Park has done. It has been our personal pleasure to be apart of this and we hope to continue in the future.

Warm Regards,
Friends Of The San Tan Mountain Regional Park
