my family and friends use this public land extensively for camping trips, hunting ,and all around out door use. we use all of the roads for sightseeing and wildlife viewing. i have hunted in these areas for 20 plus years and rely on the roads for game recovery. i have spent the last 20 years camping out in these areas with my family on almost all of the designated holidays like new years and thanksgiving. to loose these lands would be a great loss to many arizona families and fiends. i dont believe closing roads or making it a wilderness will help wildlife in the areas i believe it will hurt them , if the ranchers can not get to there waters they will not maintain them that would be detrimental to all the wildlife. please consider not closing any of this proposal area it would hurt every person and animal involved.
