I would like to see the areas stay the way they are currently, stay in protective custody as it were. This land cannot just be sold to the highest bidder there has to be some planning associated with it. This is some of the most sensitive natural areas in Pinal County, and need to be treated as such.

I would like to see the areas in concern saved as they are. We need to protect this pristine land for the future, not sold to the highest bidder. It needs to be managed to keep it for future generations.
