Report.

The side and end lines of the several claims in this

survey and all tie lines were run direct upon the ground.

The corner of sections 25, 36, 30 and 31, T. 1 N., Rs. 14 and 15 E., G. & S.R.B. & M., to which tie is given, is a schist boulder, .4 x .7 x 1.3 ft. out of the ground, marked with one notch on the south end, five notches on the north end and 15 E on the east side.

Survey No. 2565, Keystone, Lone Star and Eastern Star lodes:

The corners of these claims are 4 x 4" posts, properly set and scribed. I find the courses and distances of the lines of these claims, except line 1-2, Eastern Star lode, correct as approved. The disagreement between these notes and line 1-2, Eastern Star lode is due to error in Sur. No. 2565. The disagreement between the tie to the corner of sections 25, 36, 30 and 31, T. 1 N., Rs. 14 and 15 E., G. & S.R.B. & M. from Cor. No. 1 of each of these three claims as reported in the returns of Sur. No. 2565, and as calculated through the lines of this survey, is nominal. The disagreement between the area in conflict between the Lone Star lode and the Lawful Ledge lode, unsurveyed, as reported in the returns of Sur. No. 2565, and the same conflict as reported in this survey, is due to error in Sur. No. 2565.

Sur. 2564, Nellie Bly lode:

The corners of this claim are 4 x 4" posts, properly set and scribed. The disagreement between these notes and lines 2-3-4-1 is due to error in Sur. No. 2564.

Sur. No. 2540, Sho Me lode.

The corners of this claim are 4 x 4" posts, properly set and scribed. The disagreement between these notes and line II-III is due to error in Sur. No. 2540.

The disagreement between these notes and the certificates of location of the claims embraced in the survey is due to errors in said certificates.
