AND THE METES-AND-BOUNDS SURVEYS

---

IN SECTION 32,

---

TOWNSHIP 3 SOUTH, RANGE 29 EAST

---

Of the Gila and Salt River Meridian,  
In the State of Arizona

EXECUTED BY  
Gordon R. Bube1, Cadastral Surveyor

---

Under Special Instructions dated October 2, 1995, approved October 2, 1995, which provided for the surveys included under Group Number 793 and assignment instructions dated October 17, 1995.

Survey commenced October 30, 1995  
Survey completed January 24, 1996

## BOOK 5462

T. 3 S., R. 29 E., Gila and Salt River Meridian, Arizona

## CHAINS

The following field notes are those of the dependent resurvey of a portion of the south boundary and a portion of the subdivisional lines, the subdivision of section 32, and the metes-and-bounds surveys in section 32, Township 3 South, Range 29 East, Gila and Salt River Meridian, Arizona.

The history of surveys pertaining to this resurvey is as follows: William H. Thorn and Benjamin J. Kinsey surveyed the south boundary and the subdivisional lines in 1921. E.T. Morton surveyed Mineral Survey Numbers 3098 (cancelled) and 3101 in 1913 and Mineral Survey Number 3293, in 1916.

The survey was executed in accordance with the specifications as set forth in the Manual of Surveying Instructions, 1973, and the Special Instructions dated October 2, 1995, for Group No. 793, Arizona.

Preliminary to the resurvey, the lines of the original survey were retraced and search was made for all corners and other calls of the record. Identified corners were remonumented in their original positions; lost corners were restored and monumented at proportionate positions based on the original record. The retracement data were thoroughly verified and only the true line field notes are given herein.

The directions of all lines were determined by direct hour angle observations on the sun, and refer to the true meridian. Distances and angles were measured with a Sokkia SET2BII total station instrument.

The geographic position of the 1/4 sec. cor. of secs. 32 and 33 as determined by differential positioning using the Ashtech MXII Geodetic Positioning System, with U.S. Coast and Geodetic Survey triangulation station "SIDE 1945" used as a control station, is as follows:

Latitude: 33°07'42.84" N. Longitude: 109°22'28.37" W. NAD 27

The mean magnetic declination as taken from quadrangle map CORONADO MOUNTAIN ARIZ., published in 1989 by U.S. Geological Survey, is 11 1/2° E.

## GENERAL DESCRIPTION

The area surveyed is located approximately 3 miles NNW of Morenci Arizona. Parts of the Phelps Dodge Corporations, Morenci Mining Operation lie to the E. and S. of the surveyed area.

The terrain consists of steep, rocky, mountainous land, with dense stands of manzanita and oak with scattered juniper and pinyon. Santa Rosa Gulch crosses the west half of sec. 32, its course being SSW. The average elevation is 6200 ft. above sea level.

Access is by way of U.S. highway 191.

## CERTIFICATE OF SURVEY

I, Gordon R. Bubl, Cadastral Surveyor, HEREBY CERTIFY upon honor that, in pursuance of Special Instructions bearing date of the 2nd day of October, 1995, I have dependently resurveyed a portions of the south boundary and a portion of the subdivisional lines, subdivided section 32 and executed metes-and-bounds surveys in section 32, Township 3 South, Range 29 East, of the Gila and Salt River Meridian, in the State of Arizona, which are represented in the foregoing field notes as having been executed by me and under my direction; and that said survey has been made in strict conformity with said special instructions, the Manual of Instructions for the Survey of the Public Lands of the United States, and in specific manner described in the foregoing field notes.

MAY 17, 1996

(Date)

(Cadastral Surveyor)

## CERTIFICATE OF APPROVAL

BUREAU OF LAND MANAGEMENT  
Arizona State Office  
Phoenix, Arizona

The foregoing field notes of the dependent resurvey of a portion of the south boundary, a portion of the subdivisional lines and the subdivision of section 32, and the metes-and-bounds surveys in section 32, Township 3 South, Range 29 East, Gila and Salt River Meridian, Arizona, executed by Gordon R. Bubl, Cadastral Surveyor, having been critically examined and found correct, are hereby approved.

MAY 22 1996

(Date)

(Acting Chief Cadastral Surveyor of Arizona)

## CERTIFICATE OF TRANSCRIPT

I CERTIFY that the foregoing transcript of the field notes of the above-described surveys in T. 3 S., R. 29 E., Gila and Salt River Meridian, Arizona, is a true copy of the original field notes.

(Date)

(Acting Chief Cadastral Surveyor of Arizona)
