DEPENDENT RESURVEY OF

A PORTION OF THE SUBDIVISIONAL LINES AND

PORTIONS OF MINERAL SURVEY NUMBERS 1867, 2859, 3110, 3346, 4282 AND 4481

AND THE METES-AND-BOUNDS SURVEYS

IN

SECTIONS 7, 8 AND 18,

TOWNSHIP 4 SOUTH, RANGE 29 EAST

Of the Gila and Salt River Meridian,
 In the State of Arizona

EXECUTED BY
 Gordon R. Bubel, Cadastral Surveyor

Under Special Instructions dated April 15, 1996, approved April 15, 1996, which provided for the surveys included under Group Number 798 and assignment instructions dated April 15, 1996.

Survey commenced April 16, 1996
 Survey completed June 18, 1996

BOOK 5474

T. 4 S., R. 29 E., Gila and Salt River Meridian, Arizona

CHAINS

The following field notes are those of the dependent resurvey of a portion of the subdivisional lines and portions of Mineral Survey Numbers 1867, 2859, 3110, 3346, 4282 and 4481 and the metes-and-bounds surveys in sections 7, 8 and 18, Township 4 South, Range 29 East, Gila and Salt River Meridian, Arizona.

The history of surveys pertaining to this resurvey is as follows: William H. Thorn and Benjamin J. Kinsey, surveyed a portion of the subdivisional lines in 1921. H. M. Whitaker surveyed Mineral Survey No. 1867, in 1904. Lamar Cobb surveyed Mineral Survey No. 2859, in 1910. E. T. Morton surveyed Mineral Survey No. 3110, in 1914. E. T. Morton surveyed Mineral Survey No. 3346, in 1916. T. N. Stevens surveyed Mineral Survey No. 3911, in 1923. J. William Waara surveyed Mineral Survey No. 4282, in 1944. Oscar T. Smith surveyed Mineral Survey No. 4481, in 1959.

The survey was executed in accordance with the specifications as set forth in the Manual of Surveying Instructions, 1973, and the Special Instructions dated April 15, 1996, for Group No. 798, Arizona.

Preliminary to the resurvey, the lines of the original survey were retraced and search was made for all corners and other calls of the record. Identified corners were remonumented in their original positions; lost corners were restored and monumented at proportionate positions based on the original record. The retracement data were thoroughly verified and only the true line field notes are given herein.

The directions of all lines were determined by direct hour angle observations on the sun, and refer to the true meridian. Distances and angles were measured with a Sokkia SET2BII total station instrument.

The geographic position of the 1/4 sec. cor. of secs. 8 and 17 as determined from a tie made to U.S. Geological Survey triangulation station "MORENCI NO. 2 1961", located in the SW quarter of section 8, is as follows:

Latitude: 33°05'29.50" N. Longitude: 109°22'59.64" W. NAD 27

The mean magnetic declination as taken from quadrangle map COPPERPLATE GULCH, ARIZ., published in 1989 by U.S. Geological Survey, is 11°30' E.

From this same cor. point, cor. No. 3, Ontario No 1 lode, M.S. No. 3110, bears S. 74°29' W., 12.86 chs. dist., hereinbefore described.

GENERAL DESCRIPTION

The land encompassed in this survey is located approximately 3 miles NNW of Morenci Arizona. Parts of the Phelps Dodge Corporations, Morenci Mining Operation lie to the E. and S. of the surveyed area.

The terrain consists of steep, rocky, mountainous land, with dense stands of scrub oak, and manzanita, with scattered pinyon and juniper. Pinkard Gulch is the main watercourse in the area surveyed. The average elevation is 5600 feet. above sea level.

Access is by way of U.S. highway 191.

CERTIFICATE OF SURVEY

I Gordon R. Babel, Cadastral Surveyor, HEREBY CERTIFY upon honor that, in pursuance of Special Instructions bearing date of the 15th day of April, 1996, I have dependently resurveyed a portion of the subdivisional lines and portions of Mineral Survey Nos. 1867, 2859, 3110, 3346, 4282, and 4481 and executed the metes-and-bounds surveys in sections 7, 8 and 18, Township 4 South, Range 29 East, of the Gila and Salt River Meridian, in the State of Arizona, which are represented in the foregoing field notes as having been executed by me and under my direction; and that said survey has been made in strict conformity with said special instructions, the Manual of Instructions for the Survey of the Public Lands of the United States, and in specific manner described in the foregoing field notes.
