Subdivision of Sec. 7 - pg. 6

## T. 6 S., R. 1 E., Gila and Salt River Meridian, Arizona

## CHAINS

The following field notes describe the dependent resurvey of a portion of the subdivisional lines, and the subdivision of section 7, in Township 6 South, Range 1 East, Gila and Salt River Meridian, Arizona.

The history of surveys pertaining to this survey is as follows: The Principal Meridian through Township 6 South was surveyed by J. B. McLaughlin in 1883. The Principal Meridian through Township 6 South was resurveyed and the First Standard Parallel South through Range 1 East was surveyed by W. H. Thorn and W. K. Kierulff in 1914-15. The subdivisional lines were surveyed by W. G. Shapcott and W. K. Kierulff in 1915-16.

The survey was executed in accordance with the specifications as set forth in the Manual of Surveying Instructions, 1973, and the Special Instructions dated November 8, 1993, for Group No. 764, Arizona.

Preliminary to the resurvey, the lines of the original survey were retraced and search was made for all corners and other calls of the record. Identified corners were remonumented in their original positions; lost corners were restored and monumented at proportionate positions based on the original record. The retracement data were thoroughly verified and only the true line field notes are given herein.

The directions of all lines were determined by direct hour angle observations on the sun, and refer to the true meridian. Distances and angles were measured with a Pentax PTS-iii05 and a Nikon NTD-4 total station instruments.

The geographic position of the 1/4 sec. cor. of secs. 7 and 8, was determined by the technique of static differential positioning using Ashtech models M-XII and MS-XII geodetic units. U.S. Coast and Geodetic Survey triangulation stations "OCO 1936" and "BIG 1960" were used as the control stations. The elevation and coordinates refer to the top of the monument.

Elevation	Latitude	Longitude	
1689.11 ft.	32°55'12.899" N.	112°17'19.638" W.	NAD27

The mean magnetic declination, as taken from quadrangle map CONLEY WELLS, ARIZ., published in 1979 by U.S. Geological Survey, is 13° E.

	<p>General Description</p>
	<p>This survey is located approximately 10 miles south of the town of Mobile, Arizona. The elevation ranges from 1500 feet to 2800 feet above sea level. The general terrain encompassed in this resurvey is mountainous. The general drainage is to the east and south.</p>

## T. 6 S., R. 1 E., Gila and Salt River Meridian, Arizona

## CHAINS

The soil is rocky and does not promote much usable vegetation. There is an abundance of saguaro and other various cacti, greasewood, along with some paloverde and ironwood trees.

There are various range improvements in the township consisting of improved dirt roads, corrals and water tanks.

Land usage consists primarily of grazing cattle. Other significant uses of the land would be for recreational and hunting purposes. Quail, javelin, rabbits and lizards are abundant in the area encompassed by this survey.

CERTIFICATE OF SURVEY

I, Robert C. Umbanhowar, Cadastral Surveyor, HEREBY CERTIFY upon honor that, in pursuance of Special Instructions bearing date of the 8th day of November, 1993, I have dependently resurveyed a portion of the subdivisional lines and subdivided section 7, in Township 6 South, Range 1 East, of the Gila and Salt River Meridian, in the State of Arizona, which are represented in the foregoing field notes as having been executed by me and under my direction; and that said survey has been made in strict conformity with said special instructions, the Manual of Instructions for the Survey of the Public Lands of the United States, and in specific manner described in the foregoing field notes.

(Cadastral Surveyor)

CERTIFICATE OF APPROVAL

BUREAU OF LAND MANAGEMENT  
Arizona State Office  
Phoenix, Arizona

The foregoing field notes of the dependent resurvey of a portion of the subdivisional lines and the subdivision of section 7, in Township 6 South, Range 1 East, Gila and Salt River Meridian, Arizona, executed by Robert C. Umbanhowar, Cadastral Surveyor, having been critically examined and found correct, are hereby approved.
