FIELD NOTES

OF

THE METES-AND-BOUNDS SURVEY OF

THE EAGLETAIL MOUNTAINS WILDERNESS AREA BOUNDARY,

TOWNSHIP 2 SOUTH, RANGE 12 WEST

Of the Gila and Salt River Meridian,
In the State of Arizona

Joe R. Salazar

EXECUTED BY

Cadastral Surveyor

Under Special Instructions dated April 15 1998, approved April 15, 1998, which provided for the surveys included under Group Number 827, and assignment instructions dated April 15, 1998.

Survey Commenced March 29, 1999

Survey Completed April 1, 1999

CHAINS

The following field notes describe the metes-and-bounds survey of the Eagletail Mountains Wilderness Area Boundary, Township 2 South, Range 12 West, Gila and Salt River Meridian, Arizona.

William E. Hiester and Ty White surveyed the south, east, west and north boundaries and the subdivisional lines, in 1941.

The survey was executed in accordance with the specifications as set forth in the Manual of Surveying Instructions, 1973, and the Special Instructions dated April 15, 1998, for Group Number 827, Arizona.

Preliminary to the resurvey, the lines of the original survey were retraced and search was made for all corners and other calls of the record. Identified corners were remonumented in their original positions; lost corners were restored at proportionate positions based on the original record. The retracement data were thoroughly verified and only the true line field notes are given herein.

The distances and directions of all lines were determined by use of the Trimble 4400 real time kinematic survey system, and refer to the true meridian.

The geographic position of the corner of Townships 1 and 2 South, Ranges 11 and 12 West, as determined from a relative global positioning vector made to United States Coast and Geodetic Survey triangulation station "MOTTBUSCH 1950", with published latitude of 33°19'45.38048" N., and published longitude of 113°25'01.89544" W., NAD 83 (1992) is as follows:

Latitude: 33°17'28.47" N. Longitude: 113°26'09.30" W.
NAD 83 (1992)

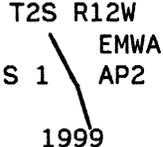

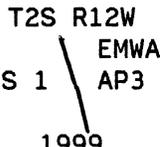

The mean magnetic declination is 12 3/4° E.

 bdy. of the Tp.

General Description

The Eagletail Mountains Wilderness Area is located about 65 miles west of Phoenix, Arizona, in Maricopa, Yuma and LaPaz counties.

Terrain is rolling, rugged and rocky and covered with vegetation of creosote, cacti and grasses. There are scattered ironwood and palo verde trees throughout the area.

Access is by way Harquahala Valley Road, which connects to Interstate 10 near Tonapah, Arizona. There are numerous trail roads throughout the region.

Elevation is about 1600 feet above sea level.

Principle uses of the surrounding area include irrigated farming, ranching, and recreation.

There was mining activity in the past, but no current activity in the area was noted during the course of the survey.

The mean magnetic declination of 12 3/4° E., was derived from the United States Geological Survey computer "MAGPOINT", utilizing the Regional Magnetic Field Model for Epoch 1995 for the dates of survey.

CERTIFICATE OF SURVEY

I, Joe R. Salazar, Cadastral Surveyor, HEREBY CERTIFY upon honor that, in pursuance of Special Instructions bearing date of the 15th day of April, 1998, I have performed the metes-and-bounds survey of the Eagletail Mountains Wilderness Area Boundary, Township 2 South, Range 12 West, of the Gila and Salt River Meridian, in the State of Arizona, which are represented in the foregoing field notes as having been executed by me and under my direction; and that said survey has been made in strict conformity with said special instructions, the Manual of Instructions for the Survey of the Public Lands of the United States, and in specific manner described in the foregoing field notes.

Joe R. Salazar

(Cadastral Surveyor)

CERTIFICATE OF APPROVAL

BUREAU OF LAND MANAGEMENT
Arizona State Office
Phoenix, Arizona

The foregoing field notes of the metes-and-bounds survey of the Eagletail Mountains Wilderness Area Boundary, Township 2 South, Range 12 West, Gila and Salt River Meridian, Arizona, executed by Joe R. Salazar, Cadastral Surveyor, having been critically examined and found correct, are hereby approved.

July 30, 2001
