PRESCOTT National Forest,
Yavapai County, Arizona

Surveyed under instructions dated December 6, 1913, 1909.

by J. William Waara
U. S. Mineral Surveyor.

Survey commenced December 13, 1913.
Survey completed December 15, 1913.

Address of Atty.
Fens S. Hildreth,
Phoenix Arizona.
HOMESTEAD ENTRY SURVEY NO. 79
ARIZONA

Robert H. Ferguson, made Homestead Listing application No. 115, Prescott National Forest, on November 28, 1911, and followed this by making a homestead entry known as Homestead Entry No. 021975, based on List No. 3-1839, which entry was made in the Phoenix Arizona land office on March 31, 1913.

Application for an official survey was filed in the office of U.S. Surveyor General, Phoenix Arizona, by Fred S. Hildreth, of Phoenix Arizona, attorney for Robert H. Ferguson, dated December 5, 1913. The survey of this claim was authorized by letter "E" JSW 319664, dated May 19, 1913 from the Commissioner of the General Land Office. Special Instructions, under which this survey was executed, are dated December 6, 1913, and designated "Amended Special Instructions for Survey of Homestead within National Forest, No. 79."

This claim is situated in sections 6 and 7, T.16 N. R. 6 W., unsurveyed, within the Prescott National Forest.

The survey was commenced on the 12th day of December 1913, at the corner to Sections 1 and 12, on the township line between T.16 N. R. 6 and 7 W. of the G. & S. R. R. & M. I assumed a meridian based on this point having a latitude of 34° 47' and established meridian of reference, as later checked and corrected, and shown in detail on accompanying sheets. From this section corner, I ran a traverse to Cor. No. 1 of this survey, and commenced survey of claim.

Beginning at Cor. No. 1, identical in position with Cor. No. H V of listing survey, a granite stone 8 x 12 x 26 inches long set 18 inches in the ground with a substantial mound of stone alongside; chiseled 1-HEE-79 on southeast face with cross on top for exact corner point, from which point,

The corner to Sections 1 and 12, on the line between Townships 16 N. Ranges 6 and 7 W. bs. 8.59°-081°-40° W.
32.64 chains.

A Western Yellow Pine tree, 32 inches in diameter, with nail in blaze and scribed 1-HES-79, WH V, and B T in blaze at root of tree, brs. S.43°-50'E. 0.47 chs.

A Western Yellow Pine tree, 28 inches in diameter with nail in blaze scribed 1-HES-79, WH V, and B T in blaze at root of tree, brs. N.32°-20'W. 1.03 chs.

The granite boulder which marked this corner of the listing survey, was a stone 6 x 12 x 18 inches long set 8 inches in the ground, and was chiseled H V on southeast face. As this stone did not meet with the requirements for official surveys, it was replaced with stone as previously described, and the markings thereon obliterated.

No other bearings available. Magnetic Declination 15°-40'East at this corner, on December 12, 1913 at 2:00 o'clock P.M., deduced, resulting mean declination, 14°-41.6'E.

Chains

2.41 Cross wagon road to Camp Wood, brs. east to west.

3.24 TO 00R.No.2, identical in position with Cor.No.H 1 of listing survey, a granite stone 8 x 11 x 30 inches long set 20 inches in the ground with a substantial mound of stone alongside; chiseled 2-HES-79 on south face with cross on top for exact corner point, from which point,

A Western Yellow Pine tree, 35 inches in diameter with nail in blaze scribed 2-HES-79, WH L, and B T in blaze at root of tree, brs. N.35°-09'E. 0.49 chs.

An Oak tree, 12 inches in diameter, with nail in blaze scribed 2-HES-79, WH I, and B T in blaze at root of tree, brs. S.69°-28'E. 0.32 chs.

The granite boulder which marked this corner of the listing survey was a stone 8 x 8 x 14 inches long set 7 inches in the ground, and was chiseled H L on south face. As this stone did not meet with the requirements for official surveys, it was replaced with a stone as previously described, and the markings thereon obliterated.
HOMESTEAD ENTR Y SURVEY NO. 78: ARIZONA

Thence S. 75° 21' 30" E.

2.64 Cross road to Camp Wood, brs. east to west.

13.27 Cross " " " " southeast to northwest.

13.55 TO CORNER NO. 3, identical in position with Cor. No. H II of listing survey, a granite stone 4 x 10 x 28 inches long set 8 inches in the ground with a substantial mound of stone alongside; chiseled H-79 on south face with cross on top for exact corner point, from which point,

A Western Yellow Pine tree, 36 inches in diameter
with nail in blaze scribed H-79, WH II, and B T in blaze
at root of tree, brs. S. 65° 02' W. 0.37 chs.

An Oak tree 8 inches in diameter, with nail in blaze scribed 3-79, WH II, and B T in blaze at root of tree, brs. N. 44° 04' E. 0.50 chs. (Quit here Dec. 12, 1915.)

The granite boulder which marked this corner of the listing survey was a stone 6 x 10 x 14 inches long set 7 inches in the ground, and was chiseled H II on south face. As this stone did not meet with the requirements for official surveys, it was replaced with a stone as previously described, and the markings thereon obliterated.

Start Dec. 13th. Thence S. 47° 10' E.

0.10 Commence slight ascent.

1.88 Top of ascent on granite ridge, elevation 1500 ft.

6.00 Commence slight descent.

7.50 Bottom of slope, descent 18 feet.

8.33 Cross road to Camp Wood, brs. southeast to northwest.

11.07 Cross split rail fence, brs. southeast to northwest.

16.60 Cross " " " " " " " " "

19.42 Cross road to Camp Wood, brs. south to north.

21.50 Commence slight descent.

26.49 Cross road to Prescott, brs. west to east.

30.06 Cross small wash, 0.50 chs wide, flows west to east. This point is the bottom of descent, depth 40 feet.

30.62 Cross road to Prescott, brs. northeast to southwest.

31.92 TO CORNER No. 4, identical in position with Cor. No. H
of listing survey, a granite stone 6 x 10 x 27 inches long set 16 inches in the ground with a substantial mound of stone alongside; chiseled 4-HES-79 on west face with cross on top for exact corner point, from which point,

A Western Yellow Pine tree 30 inches in diameter with nail in blaze scribed 4-HES-79, WH III, and B T in blaze at root of tree, brs. S.16°-45'W. 0.61 chs.

A Walnut tree 14 inches in diameter, with nail in blaze scribed 4-HES-79, WH III, and B T in blaze at root of tree, brs. N.42°-13'W. 0.91 chs.

The granite boulder which marked this corner of the listing survey was a stone 4 x 10 x 20 inches long set 10 inches in the ground, and chiseled H III on west face. As this stone did not meet with the requirements for official surveys, it was replaced with a stone as previously described, and the markings thereon obliterated.

Thence S.84°-54'-30"W.

0.91 Cross road to Prescott, brs. northwest to southeast.

1.52 Cross split rail fence of pasture, brs. northwest to south east, ground slightly ascending.

8.43 Cross small wash flows southwest to northeast.

11.31 Pass through corner of split rail fence, brs. north, and northe ast

12.00 TO COR.No.5, identical in position with Cor.No.H IV of listing survey, a granite stone 10 x 18 x 30 inches long set 20 inches in the ground with substantial mound of stone alongside; chiseled 5-HES-79 on north face with cross on top for exact corner point, from which point,

A Western Yellow Pine tree, 34 inches in diameter with nail in blaze scribed 5-HES-79, WH IV, and B T in blaze at root of tree, brs. N.17°-18'E. 0.39 chs.

A Western Yellow Pine tree, 24 inches in diameter with nail in blaze scribed 5-HES-79, WH IV, and B T in blaze at root of tree, brs. S.15°-33'W. 0.73 chs. (Quit here December 13, 1913.
The granite boulder which marked this corner of listing survey, was a stone 6 x 8 x 14 inches long set 7
inches in the ground, and was chiseled N IV on north face. As this stone did not meet with the requirements for official surveys, it was replaced with a stone as previously described, and the markings thereon obliterated. Start here December 15, Thence N.48°-24'W. ascending 7.29 To top of small ridge, brs. southwest to northeast, elevation 35.0 ft.

10.63 Cross fence on small ridge, brs. northwest to southeast.
11.04 Cross fence brs. northwest to southeast.
13.69 Cross fence brs. southwest to northeast.
39.84 Cross small wash flows easterly.
34.73 Cross barbed wire fence, brs. southwest to northeast.
35.66 TO COR. NO. 1 the place of beginning. Finished here Dec. 15, 1913

AREA

Total area of HOMESTEAD ENTRY SURVEY NO. 79 ————- 32.95

---------

IMPROVEMENTS

No. 1. Chicken Coop, the west gable of which brs. N.1°-52' E. 7.85 chains from Cor. No. 5, a frame building built of slab lumber, 14 x 14 feet. Value $150.00

No. 2. Cellar and Cabin, The south gable of which brs. N.9°-09'E. 9.10 chains from Cor. No. 5. The cellar has walls and floor of concrete, and is built into a hillsides, so floor is on level with floor of residence of house No. 3. The cellar is 10 x 18 ft. in size. The cabin is built directly over cellar being of same length, but a little wider, size 13.5 x 18 ft. The cabin is built of logs, one story in height, and has corrugated roof. Value, $500.00

No. 3. House or residence, the southwest gable of which brs. N.10°-35'E. 8.67 chains from Cor. No. 5. This house
is built of rough lumber, one story in height, corrugated iron roof. The main building is 12.5 x 23.5 ft., with an addition on the south, nine feet wide and running 20 feet in length. Value $400.00

No. 4, Barn and storehouse, the northwest gable of which is made of logs, rough lumber, and slabs. The main part is used for storage of hay, the sides for wagon shed, and barn, etc. It is 32 x 40.5 ft. in size, one and one-half story, with corrugated iron roof. Value $500.00

DESCRIPTION OF TRACT, ETC.

This tract is a small gently sloping park, surrounded by heavy timber land and wooded hills. The soil is a sandy loam, and at the center and lower end turns in to meadow land, with an abundance of water. This water is chiefly useful for stock and domestic purposes. The stand of timber included within the boundaries of this tract amounts to approximately 50,000 board feet. This tract is non-mineral, and its chief use, is in connection with the stock raising industry.

LOCATION

This tract is situated about two miles from Camp Wood, miles easterly/westerly from Williamson Valley, and forty in Secs. 6-7, T.16 N., R.6 W., Unsur. miles westerly from Prescott, Arizona. There are no officially surveyed mining or other claims in this neighborhood, nor unsurveyed tracts of like nature.

This survey was concluded on the 15th. day of December, 1913.
The corner to sections 1 and 12 on the township line between T.13 N., R.6 and 7 W. of the G. & S. R. B. & M., conforms accurately with the calls in the official field notes for said corner, said notes having been furnished me in connection with the special instructions.

I made four separate observations for meridian with transit fitted with Seaguller Solar attachment, at points as shown in tabulation below, and from this set, determined the true meridian, which true meridian was checked by an observation on Polaris at elongation as hereinafter noted.

At the time of starting the survey, I would have been delayed several hours, if I waited to take an observation for latitude, so I assumed that the latitude was as interpolated from the geological and public survey maps, 34°-47'. Observation No.1 was used as the reference meridian in the compass bearings of direction, as carried forward with transit. At observation No.2, my south point fell S.00°-04'W. of assumed meridian. At observation point No.3, my south point fell S.00°-02'W. of assumed meridian. At observation point No.4, my south point fell S.00°-03'W. of assumed meridian. The mean of No.1 and 2, gave the true meridian as S.00°-03'W. of assumed meridian, and the mean of No.3 and 4 gave the true meridian as 3.00°-02'-30"W. of assumed meridian. Taking the mean of the two sets, I have a correction of two minutes to be applied to all courses, which correction has been duly applied. My observation for latitude, on Dec. 15, checked my assumed interpolation of 34°-47'.

Detail of one solar observation, (used No.1)

Mountain time. Dec. 12, 1913, at 11:00 A.M. I set off 23°-04°8' on the declination arc (vertical circle) and then 55°-13' (co-
lat.) on the latitude arc (vertical circle), and determined a meridian with solar. (This same procedure was followed in the case of the three other observations noted above).

Observation for Latitude:

This observation was made at point midway between improvements No. 2 and 3 at noon December 15, 1918. I set off the declination of $23^\circ - 15' \text{S}$ on the declination arc, and observed the sun at its highest point on the meridian, which gave the latitude on the vertical circle as $34^\circ - 47' \text{N}$.

Observation on Polaris at Elongation to check meridian established by use of solar attachment.

At a point north of Cor. No. 5 of this survey, said point having been previously set by day light, near improvement No. 1, I set up my transit, and at approximately 3 h-10m A.M., by my watch which had mountain time, I observed Polaris at Western Elongation. On laying off the azimuth of Polaris 1$^\circ$ - 24' to the East, and plunging the telescope in the direction of illuminated mark set on meridian as observed by my solar observations, I found that my Polaris observation checked the meridian previously determined. The observation was further checked by revolving upper motion of instrument on its vertical axis, and making an observation while in this inverted position. Owing to the fact that the corners of this survey fall with the timber, it was necessary to make observations at the station above mentioned in order to insure clear line of sight on Polaris. Dec. 15, 1918.

Traverse from Section corner to Cor. No. 1 H.E.S. No. 79 beginning at corner to sections 1 and 12 on range line Thence N. $53^\circ - 37' \text{E.}$ 4.54 chs., Thence N. $62^\circ - 55' \text{E.}$ 3.45 chs., Thence N. $54^\circ - 32' \text{E.}$ 3.21 chs., Thence N. $63^\circ - 20' \text{E.}$ 2.93 chs., Thence N. $73^\circ - 09' \text{E.}$ 5.48 chs., Thence N. $46^\circ - 07' \text{E.}$ 3.92 chs., Thence N. $78^\circ - 25' - 30' \text{E.}$ 2.24 chs., Thence N. $17^\circ - 39' \text{E.}$ 5.14 chs. to Cor. No. 1 of H.E.S. No. 79.

Oath of Assistants.

Due to the fact that Ernest Weeks was living at the place surveyed, and forty miles from the nearest officer qualified
to administer oaths, and the great expense and loss of time necessary to go before a proper officer, I deemed it advisable to have affidavit made before me as a U.S. Mineral Surveyor.

INSTRUMENT

This survey was made with a Lietz Right Mountain transit-theodolite, No. 13-5929. The courses were deflected from the true meridian, as determined by observations on Polaris at Elongation, and by the use of the Saegmuller Solar Attachment. The readings possible on the vertical circle are to the nearest minute of arc, and on the horizontal limb to the nearest thirty seconds of arc. The distances were measured with a 300 foot steel tape, and instrument to point clinometer method of slope measurements were used when necessary.

FINAL OATH OF U.S. MINERAL SURVEYOR.

I, J. WILLIAM WAARA, U. S. Mineral Surveyor, do solemnly swear that, in pursuance of instructions received from the United States Surveyor-General of Arizona, dated December 6, 1913, I have, in strict conformity to the laws of the United States, the official regulations and instructions thereunder, and the instructions of said Surveyor-General, faithfully and correctly executed the survey of the Homestead Entry Claim of Robert H. Ferguson, described as H. E. No. 021975, List No. 3-1839, situate in the Prescott National Forest, Yavapai County, Arizona, and designated as Homestead Entry Survey No. 79, as represented in the foregoing field notes, which accurately show the boundaries of said Homestead Entry claim as distinctly marked by monuments on the ground, and described in List No. 3-1839, as incorporated in the instructions for the survey received from the Surveyor-General, and that all the corners of said survey have been established and perpetuated in strict accordance with the law, official regulations, and instructions thereunder; and I do further solemnly swear that the foregoing are the true and original field notes of said survey and my report therein.

J. William Waara
U. S. Mineral Surveyor.

Subscribed and sworn to by the said J. WILLIAM WAARA, U. S. Mineral Surveyor, before me, this 24th day of December, 1913.

J. W. Moore, Notary Public.

FIELD NOTES OF SURVEY
Ferguson, R. H., Homestead Listing Application No. 115
Prescott National Forest

November 29, 1911.

Located approximately on Sections 6 and 7, Twp. 16 N.,

The survey was run on a variation of 15° East as used
on the original survey of Twp. 16 N., R. 7 W.

The survey is tied to the east 1/4 corner of Section 1,
Twp. 16 N., R. 7 W.

Corner No. 1 and place of beginning. A granite boulder
6" x 8" x 14" chiseled H1 and held in place by a monument of stone
3' x 3' x 3', bears south 57° E. 36 chains from the east 1/4 cor-
ner of Section 1, Twp. 16 N., R. 7 W., G. & S. R. B. & M.

Whence an oak tree 10" in diameter blazed and scribed WH1 bears
S. 89° E. .70 chains and a pine tree 24" in diameter blazed and
scribed WH1 bears N. 35° W. .76 chains.

Thence S. 76° E. 12.50 chains to corner No. 2, a
granite boulder 6" x 10" x 14" chiseled H2 and held in place by a
monument of stone 3' x 3' x 3' whence a pine tree 36" in diameter
blazed and scribed WH2 bears S. 63° W. .39 chains and an oak
tree 8" in diameter blazed and scribed WH2 bears N. 44° E. .51
chains. Thence S. 48° E. 32 chains to corner No. 3 a granite
boulder 4" x 10" x 20" chiseled H3 and held in place by a monument
of stone 3' x 3' x 3' whence a pine tree 24" in diameter blazed and
scribed WH3 bears S. 16° W. .59 chains and a walnut tree 10" in
diameter blazed and scribed WH3 bears N. 44° W. .79 chains.
Thence S. 84° W. 12 chains to corner No. 4 a granite boulder 8" x 8" x 14" chiseled H4 and held in place by a monument of stone 3' x 3' x 3' whence a pine tree 24" in diameter blazed and scribed WH4 bears N. 15° E. .36 chains and a pine tree 16" in diameter blazed and scribed WH4 bears S. 15° W. .71 chains.

Thence N. 49° W. 54.80 chains to corner No. 5 a granite boulder 6" x 12" x 18" chiseled H5 and held in place by a monument of stone 2' x 2' x 2' whence a pine tree 24" in diameter blazed and scribed WH5 bears S. 44° E. .43 chains and a pine tree 16" in diameter blazed and scribed WH5 bears N. 33° W. 1.15 chains.

Thence N. 39° E. 3.60 chains to corner No. 1 and place of beginning. Containing 52.50 acres, be the same more or less.
