of the

Gila and Salt River Base and Meridian.

ARIZONA

Survey executed by Walter G. Turley, Surveyor - Forest Service
Under special instructions dated June 10, 1914
Survey commenced July 11, 1914
Survey completed July 14, 1914

Applicant for listing Fred Baca,
Residence Heber, Arizona
Application No. 220, dated August 11, 1910
List No. 3-886, dated December 5, 1910
Applicant for survey Fred Baca,
Residence Heber, Arizona
H. E. No. 014670, dated June 29, 1911
Land district Phoenix, Arizona
OATH OF ASSISTANTS

We hereby certify that we assisted Walter G. Turley, Surveyor - Forest Service, in surveying all those parts or portions of Homestead Entry Survey No. 192, in un-surveyed Section 5, Township 11 N., Range 15 E., un-surveyed Section 4, Township 11 N., Range 15 E., un-surveyed Section 9, Township 11 N., Range 15 E., of the G. & S.R.R. & meridian, State of Arizona, which are represented in the following field notes as having been surveyed by him and under his direction; and that said survey has been in all respects, to the best of our knowledge and belief, well and faithfully surveyed, and the corner monuments established, according to the instructions furnished by the United States Surveyor General for Arizona.

Note: It would have been very inconvenient and expensive to appear before an officer to administer the oaths to Assistants; hence, they were taken by the Surveyor.

Subscribed and sworn to before me this 12th day of December, 1914.

Walter G. Turley, Surveyor - Forest Service

OATH OF SURVEYOR

I, Walter G. Turley, Surveyor - Forest Service, do solemnly swear that, in strict conformity with the special instructions of the United States Surveyor General for Arizona, dated June 10, 1914, and the laws of the United States, I have well, faithfully, and truly, in my own proper person, surveyed a tract of land upon the application of embraced in List No. 2-896, dated Dec. 5, 1910, for Patent, under the Act of June 11, 1906, the same to be known as Homestead Entry Survey No. 192, situated within the SITGREAVES National Forest, in un-surveyed Section 3, Township 11 N., Range 15 E., and un-surveyed Section 4, Township 11 N., Range 15 E., un-surveyed Section 9, Township 11 N., Range 16 E., of the G. & S.R.R. & meridian, Arizona, and the related retracements and resurveys and section subdivisions, which are represented in the following field notes as having been surveyed by me; and I further solemnly swear that all the corners of said survey have been established and perpetuated in strict accordance with the stated special instructions, and in the specific manner described in the field notes, and that the following are the original field notes of such survey.

Walter G. Turley, Surveyor - Forest Service

Subscribed and sworn to before me this 16th day of December, 1914.

Commissioner of U.S. Land Office, 6-17-18 (R.B. Cole)}
Applicant for listing, Fred Baca; Application No. 220 dated August 11, 1910; List No. 3-886 dated December 5, 1910; Homestead Entry No. 014670 made in the Phoenix Land Office on June 29, 1911, by Fred Baca, whose postoffice address is Heber, Arizona.

Surveyed under Acts of June 11, 1906 and June 30, 1914; also special instructions from the Surveyor General for Arizona dated June 10, 1914, and designated as Homestead Entry Survey No. 192.

Situated in what will probably be, when surveyed, Secs. 3, 4 and 9, T. 11 N., R. 16 E., Gila and Salt River Base and Meridian, within the Sitgreaves National Forest, Arizona.

Survey commenced July 11, 1914, and executed with a W. and L. E. Gurley light mountain transit No. 12963, provided with prism eye piece, stadia wires, vertical circle and Burt solar attachment. The horizontal limb of the transit has two double verniers placed opposite to each other and graduated to single minutes of arc, which is also the graduation upon the verniers of the latitude and declination arcs.

I test the adjustments of the transit and solar attachment and make necessary corrections. The stadia wire interval is adjusted to read 1:152.

All distances are horizontal, and were reduced from measurements made directly on the slope with a 500 link steel tape, graduated to links and tenths; and the slope angles determined with a clinometer, the vernier of which reads to degrees, and a Philadelphia...
At 9h. 30m., P.M., I, m.t., in accordance with instructions, I observe Polaris with transit set up and telescope direct at cor. H-16 of List 3-886, which is a blackjack post 8 x 8 x 72 ins. above ground marked and witnessed as described by the Forest Service; and mark the direction thus determined with a tack in a stake set firmly in the ground 5.00 chs. N. of my station. Lat. 34° 23' 14" N. Long. 110° 39' 48" W.

Astron. 1 m.t., obsn., July 10, 1914—35h. 50.0m.

Astron. 1 m.t., U. C. Pol., July 10, 1914 1th. 14.1m.

Hour angle of Pol. 15h. 36.9m. 23h. 56.1m. 8h. 20.2m.

Astron. Time argument. 5h. 07 ' 45" E.

At 10h. 00m., P.M., I, m.t., on the same date, in accordance with instructions, I observe Polaris with transit set up and telescope reversed in altitude and azimuth at cor. H-16 of List 3-886, heretofore described, and mark the direction thus determined with a tack in a stake set firmly in the ground 5.00 chs. N. of my station.

Astron. 1 m.t., obsn., July 10, 1914—34h. 00.0m.

Astron. 1 m.t., U. C. Pol., July 10, 1914 1th. 14.1m.

Hour angle Pol. at obsn. 15h. 45.9m. 23h. 56.1m. 8h. 10.2m.

Astron. Time argument.

Astron. Asimuth of Pol. at obsn. 1° 09' 54" E.

July 11, 1914.

I turn off 1° 00', the azimuth of Polaris, to the W. from her direction at 9h. 50m. p.m., l.m.t., July 11, 1914; and mark the line thus determined with a tack in a stake set firmly in the ground 5.00 chs. N. of my station.

I also turn off 1° 10', the azimuth of Polaris, to the W. from her direction at 10h. 00m. p.m., l.m.t., July 11, 1914; and mark the line thus determined with a tack in a stake set firmly in the ground 5.00 chs. N. of my station. This line falls 0° 00' 23" of measured arc to the W. of the line previously established.

I mark the mean of these two lines with a tack in a stake set firmly in the ground 5.00 chs. N. of my station, and from the corresponding meridian all the courses of this survey were deflected by continuous sustained angulation.

Lat. 34° 28' 51" N. and Long. 110° 39' 52" W., at the
S. C. 1/4 sec. 33, T. 13 N., R. 15 E., Gila and Salt River Base and Meridian, obtained from the special instructions of the Surveyor General; which gives Lat.

54° 22' 14" N. and Long. 110° 39' 48" W. at cor. No.

1. The sun was obscured at apparent noon on July 13 and 14; therefore a latitude observation was not possible.

By telephone I compare my watch with the 105 meridian standard telegraphic clock and find it correct. I subtract 22m. 39s. therefrom for l.m.t. since cor. No.

1 of this survey is 110° 39' 48" W. Long.

Over bottom along foot of W. slope in scattering pine
timber. 3 x 6 x 8 x 4 feet.

10.00 Fire fence cor. from which the fence bears W. and S.
3° 05' E. Continue along fence. (+) basis.

Identical with cor. H-2 of List 3-686 which is a sand-
stone 8 x 6 x 8 ins. above ground, marked and witnessed
as described by the Forest Service. I destroy cor.
H-2 and its witnesses; and, for cor. No. 15 of this
survey, I set a sandstone 25 x 9 x 5 ins., 16 ins.
in the ground, over (+) on a stone 4 x 3 x 2 ins.
chiseled (+) at the point and 15-HES192 on the W.
face, and raise a mound of stone 2 ft. base, 1-1/2
ft. high W. of cor. from which:
A 26 in. pine scribed 15 H E S 192 + B T
bears N. 84° 40' E., 141 lks. (+) basis.
A 28 in. pine, scribed 15 H E S 192 + B T
bears S. 25° E., 152 lks.

Thence S. 17° 30' W.,
Along line H-2 to H-1 of List 3-686.
Over bottom at foot of W. slope in scattering pine
timber along wire fence.

12.00 Arroyo, 50 lks. wide, banks 4 ft. high, course W. Ascend
N. slope 10 ft.

16.50 Fire fence cor. from which fence bears W. and N. 17° 30' E.

Identical with cor. H-1 of List 3-686 which is a pine
501 631. 5 43. 3 8 w.
post 8 x 8 x 48 ins. above ground marked and witnessed as described by the Forest Service. This is also cor. R-1 of withdrawal for Wilford Ranger Station. I destroy cor. H-1 and its witnesses; and, for cor. No. 16 of this survey, I set a sandstone 28 x 16 x 8 ins., 18 ins. in the ground, over (+) on a stone 4 x 3 x 2 ins. chiseled (+) at the point and 16-HES192 on the NW. face and raise a mound of stone 2 ft. base, 1-1/2 ft. high NW. of cor. from which:

A 30 in. pine scribed 16 E E S 192 + B T bears S. 85° 30' E., 15 lks.

A 20 in. pine scribed 16 E E S 192 + B T bears S. 81° 30' W., 129 lks.

Thence N. 89° 45' W.

Along N. bdy. of Wilford Ranger Station and line H-1 to H-16 of List 3-886.

Descend NW. slope 15 ft. in scattering pine timber.

9.85 Heber road bears NE. and SW. 3 ft. high, course NE. A small stream of water is flowing. Ascend NE. slope 20 ft.

14.20 Right bank Black Canyon arroyo, 150 lks. wide, banks 3 ft. high, course NE. Ascend NE. slope 20 ft.

19.30 Forest Service telephone line bears N. and S.

22.00 Cease ascending and continue descending N. slope 15 ft.

29.96 To Cor. No. 1, the place of beginning.
Total Area: 117.30 Acres

The improvements made upon this homestead consist of the following:

A log dwelling the long side extending E. and W. and the NE. cor. of which bears S. 5° 25' W., 6.00 chs. dist. from cor. No. 101.00 x 100.00 Size: 1 A. Value: $50.00

Approximately 1 mile of wire fencing, all of which is on the inside of the claim. Value: $100.00

This claim is situated on the N. slope of the Mogollon mesa at an elevation of approximately 6700 ft. and occupies a tract of bottom land along Black Canyon which drains northward. This section is timbered and a fringe of trees is included in this survey. Sufficient water for domestic purposes and stock is obtained from seeps along the bed of Black Canyon arroyo.

The bottom soil is a sandy loam and produces the ordinary crops of the temperate zone; but it is best adapted to the small grains and sorghums. It is necessary to irrigate the land except in favorable years. This is not reported to be a mineralized section and no townsites, mining, oil or coal claims are known to have been located near this homestead.
There are no conflicts. Line 16-1 of this survey is identical with the North boundary of withdrawal for Wilford Ranger Station.

Heber postoffice is 8 miles by wagon road in a north-easterly direction. Holbrook railway station is 58 miles by wagon road in a northeasterly direction.

July 14, 1914.

APPROVAL

Office of the United States Surveyor General,

Phoenix, Arizona, March 20, 1917.

The foregoing field notes of Homestead Entry Survey No. 192

executed by Walter G. Turley, Surveyor Forest Service
under his special instructions, dated June 10, 1914 having
been critically examined, and the necessary corrections and explanations
made, the said field notes, and the surveys they describe, are hereby
approved.

[Signature]
U. S. Surveyor General.

I certify that the foregoing transcript of the field notes of the
above-described survey in the State of Arizona, has been
correctly copied from the original notes on file in this office.

[Signature]
U. S. Surveyor General.
