ARIZONA

Survey executed by Walter C. Turley, Surveyor- Forest Service
Under special instructions dated September 1, 1914.
Survey commenced September 13, 1914.
Survey completed September 14, 1914.

Applicant for listing W. J. Anderton,
Residence Gordon Canyon, Arizona.
Application No. 301, dated September 21, 1911.
List No. 2-1589, dated December 26, 1911.
Applicant for survey W. J. Anderton,
Residence Gordon Canyon, Arizona.
H. E. No. , dated
Land district Phoenix, Ariz.
OATH OF ASSISTANTS

We hereby certify that we assisted Walter C. Turley, Surveyor, Forest Service in surveying all those parts or portions of Homestead Entry Survey No. 250 in unsurveyed Section 35, Township 11 N., Range 13 E.; unsurveyed Section 36, Township 11 N., Range 13 E.,

of the G. & S.R. B. & meridian, State of Arizona, which are represented in the following field notes as having been surveyed by him and under his direction; and that said survey has been in all respects, to the best of our knowledge and belief, well and faithfully surveyed, and the corner monuments established, according to the instructions furnished by the United States Surveyor General for Arizona.

Charles E. Howard
Chairman

Charles E. Howard
Chairman

Subscribed and sworn to before me this tenth day of October, 1914.

Walter C. Turley
Surveyor, Forest Service

OATH OF SURVEYOR

I, Walter C. Turley, Surveyor, Forest Service, do solemnly swear that, in strict conformity with the special instructions of the United States Surveyor General for Arizona, dated September 1, 1914, and the laws of the United States, I have, well, faithfully, and truly, in my own proper person, surveyed a tract of land described and embraced in List No. 3-1559 dated December 26, 1911, for Patent under Act of June 18, 1906, situated within the Tonto National Forest, in unsurveyed Section 35, Township 11 N., Range 13 E., and unsurveyed Section 36, Township 11 N., Range 13 E.,

of the G. & S.R. B. & meridian, Arizona, and the related retracements and resurveys and section subdivisions, which are represented in the following field notes as having been surveyed by me; and I further solemnly swear that all the corners of said survey have been established and perpetuated in strict accordance with the stated special instructions, and in the specific manner described in the field notes, and that the following are the original field notes of such survey.

Walter C. Turley
Surveyor, Forest Service.

Subscribed and sworn to before me this 4th day of

July, 1914.

Albert E. Johnson
Notary Public
HOMESTEAD ENTRY SURVEY NO. 250
TONTONATIONAL FOREST
STATE OF ARIZONA

Chains Applicant for listing, W. J. Anderton; Application No. 301, dated September 21, 1911; List No. 5-1659, dated December 26, 1911; Surveyed under Acts of June 11, 1906, and June 30, 1914; and special instructions from the Surveyor General for Arizona, dated September 1, 1914, and designated as Homestead Entry Survey No. 250. Situated in what will probably be when surveyed, secs. 25 and 36, T. 11 N., R. 13 E., Gila and Salt River Base and Meridian within the Tonto National Forest, Arizona.

Survey commenced September 13, 1914, and executed with a W. and L. E. Gurley light mountain transit No. 12963 provided with prism eye piece, stadia wires, vertical circle, and Burt solar attachment.

The horizontal limb of the transit has two double verniers placed opposite each other and graduated to single minutes of arc, which is also the graduation upon the verniers of the latitude and declination arcs.

I test the adjustments of the transit and solar attachment, and make necessary corrections. The stadia wire interval is adjusted to read 1.132. All distances are horizontal; and were reduced from measurements made directly on the slope, with a standard 500 link steel tape graduated to links and tenths; and the slope angles determined with a clinometer the vernier of which reads to degrees; and a Philadelphia stadia rod, graduated to feet and hundredths, provided with two targets the verniers of which read to thousandths of a foot.
September 13, 1914. I set up my transit over cor. H-4 of List 3-1659, which is a sandstone, 8 x 3 x 4 ins. above ground, marked and witnessed as described by the Forest Service; and, with telescope direct, I observe Polaris in accordance with instructions at 9h. 05m. p.m., 1 m.t., and mark the direction thus determined with a tack in a stake set firmly in the ground 5.00 chs. N. of my station, which is in lat. 34° 17'. 54". N., long. 110° 56'. 34". W.

Astron. 1 m.t., obsn. Sept. 12, 1914. 33h. 05.0m.
Astron. 1 m.t., U.C. Pol. Sept. 12, 1914. 14h. 02.5m.

Hour angle Pol. at obsn. 19h. 01.5m. 23h. 55.1m.

Time Argument 4h. 54.6m.

Azimuth Pol. at obsn. 1° 20'. 45" E.

With my transit set up over cor. H-4 of List 3-1659, heretofore described, and the telescope reversed in the same direction and azimuth, at 9h. 17m. p.m., 1 m.t., I again observe Polaris in accordance with instructions, and mark the direction thus determined with a tack in a stake set firmly in the ground 5.00 chs. N. of my station.

Astron. 1 m.t., obsn. Sept. 12, 1914. 33h. 17.0m.
Astron. 1 m.t., U.C. Pol. Sept. 12, 1914. 14h. 03.5m.

Hour angle Pol. at obsn. 19h. 13.5m. 22h. 56.1m.

Time Argument 4h. 42.6m.

Azimuth Pol. at obsn. 1° 19'. 12" E.

September 14, 1914. I turn off 1° 21' the azimuth of Polaris to the W. from her direction at 9h. 05m., p.m., 1 m.t., Sept.
Chains 13, 1914; and mark the line thus determined with a tack in a stake set firmly in the ground 5.00 chs. N. of my station.

I also turn off 1° 19', the azimuth of Polaris, to the W. from her direction at 9h. 17m. p.m., l.m.t., and mark the line thus determined with a tack in a stake set firmly in the ground 5.00 chs. N. of my station. This line falls 0° 00' 24" of measured arc to the W. of the line previously established.

I mark the mean of these two lines with a tack in a stake set firmly in the ground 5.00 chs. N. of my station; and from the corresponding meridian all the courses stated in these field notes were deflected and referred by continuous sustained angulation.

Latitude 34° 17' 23" N. and Longitude 110° 56' 26" W. at the cor. to secs. 35 and 36 on the S. bdy. of T. 11 N., R. 13 E., Gila and Salt River Base and Meridian, from special instructions from the Surveyor General, which reduced gives Latitude 34° 17' 34" N. and Longitude 110° 56' 34" W. at cor. No. 1 of this survey. It was not practicable to check the latitude by direct observation. I observe the magnetic declination to be 14° 44' E. at 8h. 00m. a.m., l.m.t., at cor. No. 1 of this survey, which gives a mean magnetic declination of 14° 41' E.

On September 12, 1914 I compared my watch with the standard 105th. meridian telegraphic clock and subtract 23m. 46s. therefrom for l.m.t.

Thence S. 29° 11' E.

On a random for a tie from cor. H-4 of List 3-1659, heretofore described.

To Bdy. Post No. 11 of the Black Mesa Forest Reserve, also cor. to secs. 1, 2, 35 and 36, which is an iron post with

Improvements

The improvements made upon and for the benefit of this homestead consist of the following:

- A log dwelling 14' x 12' ft. the long side extending E. and W. and the NW. cor. of which bears S. 53° 30' E. 2.36 chs. dist from cor. No. 2. Estimated value.................. $150.00
- A log barn 36' x 20' ft. the long side extending N. and S. and the NW. cor. of which bears S. 36° 20' E. 4.15 chs. dist. from cor. No. 2. Estimated value.................. $400.00
- A frame chicken house 10' x 8' ft. the long side extending N. and S. and the NW. cor. of which bears S. 65° 45' E. 1.63 chs. dist. from cor. No. 2. Estimated value.................. $40.00
- A frame corn crib 16' x 12' ft. the long side extending N. and S. and the NW. cor. of which bears S. 60° 30' E. 4.00 chs. dist. from cor. No. 2. Estimated value.................. $100.00

Approximately 1 1/2 miles of pole fencing.

Estimated value........................................$200.00

Approximately 25 acres of cultivated land.

Description

This claim is situated in a valley which drains westward through Gordon Canyon Creek into the Tonto at an elevation of approximately 6500 ft.

This section is heavily timbered and some scattering of timber is included in this survey.

This section is well watered. There is running water in every stream situated under of the rim of the
Mogollon Mesa. There is an abundance of rainfall during the summer to grow crops. The soil is a clay loam and very productive. Good crops of corn, small grains, sorghums, have been raised.

This is not reported to be a mineralized section, and no town sites, coal, mining, or oil claims are known to have been located near this homestead. Gordon post office is approximately 1 mile S. of this claim; and Winslow on the Santa Fe railroad is approximately 75 miles by wagon road in a northerly direction.

There are no conflicts or adjoining claims. H. E. S. No. 248 is situated S. of this claim but does not touch it.

Area 49.06
APPROVAL

Office of the United States Surveyor General,

Phoenix, Arizona, November 27, 1916.

The foregoing field notes of Homestead Entry Survey No.

250,

executed by Walter G. Turley, Surveyor-Forest Service.

[Forest Service Title]

under his special instructions, dated September 1, 1914, having

been critically examined, and the necessary corrections and explanations

made, the said field notes, and the surveys they describe, are hereby

approved.

[Signature]

U. S. Surveyor General.

I certify that the foregoing transcript of the field notes of the

above-described survey in the State of Arizona, has been

correctly copied from the original notes on file in this office.

[Signature]

U. S. Surveyor General.
