Under special instructions dated April 20, 1915

Survey commenced July 27, 1915

Survey completed July 28, 1915

OATH OF ASSISTANTS

We hereby certify that we assisted Charles D. Hodson, Surveyor - Draftsman, in surveying all those parts or portions of Homestead Entry Survey No. 353, in the State of Arizona, which are represented in the following field notes as having been surveyed by him and under his direction; and that said survey has been in all respects, to the best of our knowledge and belief, well and faithfully surveyed, and the corner monuments established, according to the instructions furnished by the United States Surveyor General for Arizona.

Note: It would have been very expensive and inconvenient to appear before an officer to administer oaths to assistants; hence, they were taken by the Surveyor.

Subscribed and sworn to before me this 28th day of July, 1915.

Charles D. Hodson, Surveyor - Draftsman.

OATH OF SURVEYOR

I, Charles D. Hodson, Surveyor - Draftsman, do solemnly swear that, in strict conformity with the special instructions of the United States Surveyor General for Arizona, April 20, 1915, and the laws of the United States, I have well, faithfully, and truly, in my own proper person, surveyed a tract of land embraced in List No. 3-2718, dated August 7, 1913, for Patent under the Act of June 11, 1906, the same to be known as Homestead Entry Survey No. 353, situated within the Prescott National Forest, in unsurveyed Section 16, Township 18 N., Range 4 W., and surveyed Section ----, Township ----, Range ----, of the G. and S. R. B. and meridian, Arizona, and the related retracements and resurveys and section subdivisions, which are represented in the following field notes as having been surveyed by me; and I further solemnly swear that all the corners of said survey have been established and perpetuated in strict accordance with the stated special instructions, and in the specific manner described in the field notes, and that the following are the original field notes of such survey.

Subscribed and sworn to before me this day of July, 1915.

Charles D. Hodson, Surveyor - Draftsman.

My Commission expires April 20, 1918.
Survey commenced July 27, 1915 and executed with a Buff
and Buff transit No. 9700-6, equipped with Smith solar
attachment.

I test the adjustments of the transit and make necessary
corrections.

All distances are horizontal and were reduced from
measurements made directly on the slope with a 500
link steel tape. The slope angles were determined
with a clinometer.

At 7h. 20m. 09s. p.m., at cor. H-9, near what will be cor.
No. 1 of this survey, I observe polaris with telescope
direct. The reading on the reference object, a nail
in a stump 10.00 chs. from my station, is set at zero.

My watch is set for local mean time. Lat. 34° 57' 55"
N. Long. 112° 43' 38" W. from Special instructions
from Surveyor General and later verified.

Horizontal Angle, Left. 37° 43' 30".

Greenwich m.t. U.C. Pol., July 23, 1915, 5h. 10.3m. a.m.
Correction for Long. 1.3m.

Hour Angle and Time Argument, 9h. 48.66m.
Chains

Azimuth of Pol. at oban. 0° 44' 38" E.
37° 45' 30"

Bearing of reference object, N. 38° 26' 08" E.

At 7h. Elm. 12m. p.m., l.m.t., I again observe Polaris at same station with telescope reversed.

Horizontal Angle, Left, 37° 45' 00"

Greenwich m.t. U.C. Pol., July 28, 1915, 5h. 10.2m. a.m.
Correction for Long. 1.5m.

Bearing of Reference Object, N. 38° 27' 55" E.

Mean of two obans., N. 38° 26' 01" E., and from the corresponding meridian all the courses of this survey are deflected.

July 28, 1915.

At 7h. 00m. a.m., l.m.t., I set off 34° 58' N. on the lat. arc, 19° 11' N. on the decl. arc, and determine a meridian with the solar. My line of sight falls 0° 00' 30" to the right of the azimuth determined by oban. on Pol.

RETRACED .

At 7h. 30m. a.m., l.m.t., I set off 54° 58' N. on the lat. arc, 19° 10-1/2' N. on the decl. arc and determine a meridian with the solar at the 1/4 cor. bet. secs. 13 and 18. Total Area: 39.96 acres

Improvements:
The improvements made upon and for the benefit of this claim, consist of the following:
- A stone house 30 x 16 ft., the long side bearing N. and S. and the NE. cor. of which bears from cor. No. 3 N. 84° 46' E., 3.50 chs. dist.
- Value: $500.00

- Approximately 1-1/2 miles of irrigation ditch.
- Value: $150.00

- Approximately 1-1/2 miles of wire fence.
- Value: $225.00

Description:
This claim is situated in the bottom of the canyon formed by Walnut Creek. The soil is a rich sandy loam and produces good crops of corn, alfalfa, beans and potatoes.

Water for domestic purposes is obtained from a spring 1/4 mile W. of cor. No. 9.

Water for irrigation and stock purposes is obtained from the creek.

There is a small fringe of juniper timber included on lines 5-4 and 8-9. This timber has no commercial value.

This is not a mineralized section and I saw no indication of mineral on the claim.
CONFLICTS AND ADJOINING CLAIMS

There are no conflicts or adjoining claims.

H. E. No. 026809, Charles L. Alvis, H. E. S. No. 364 unsurveyed, lies approximately 1/2 mile NE. of this claim.

Simmons, the nearest post office, is approximately 18 miles in a Southeasterly direction and is reached by

fair wagon road. Prescott, the nearest railroad and

market point, is approximately 45 miles in a Southeasterly direction and is reached by 18 miles of fair wagon

and 27 miles of good automobile road.

Any discrepancy between these field notes and those of

the listing survey is due to error in the latter.
