OATH OF ASSISTANTS

We hereby certify that we assisted O. A. Long,
Surveyor - Forest Service in surveying all those
[Forest Service Title] parts or portions of Homestead Entry Survey No. 360, in the State of Arizona, which are represented in the following field notes as having been surveyed by him and under his direction; and that said survey has been in all respects, to the best of our knowledge and belief, well and faithfully surveyed, and the corner monuments established, according to the instructions furnished by the United States Surveyor General for Arizona.

Note: It would have been very expensive and inconvenient to appear before an officer to administer oaths to assistants; hence, they were taken by the Surveyor.

Subscribed and sworn to before me this 30th day of May, 1915.

OATH OF SURVEYOR

I, O. A. Long, Surveyor - Forest Service
[Forest Service Title] do solemnly swear that, in strict conformity with the special instructions of the United States Surveyor General for Arizona, dated May 15, 1915, and the laws of the United States, I have well, faithfully, and truly, in my own proper person, surveyed a tract of land embraced in

List Patent, No. 3-5473, dated January 23, 1915; for the same to be known as Homestead Entry Survey No. 360, situated within the CHIRICAHUA National Forest, in
- surveyed Section 9, Township 20 S, Range 31 E., and
- surveyed Section 10, Township 20 S, Range 31 E., and
- surveyed Section 4, Township 20 S, Range 31 E.,
of the G. and S. R. B. and B. meridian, Arizona, and the related retracements and resurveys and section subdivisions, which are represented in the following field notes as having been surveyed by me; and I further solemnly swear that all the corners of said survey have been established and perpetuated in strict accordance with the stated special instructions, and in the specific manner described in the field notes, and that the following are the original field notes of such survey.

Subscribed and sworn to before me this 31st day of March, 1916.

My commission expires March 17, 1921.
| Chains | Applicant for listing, Walter Edwards; Application No. 165, dated May 7, 1914; List No. 2-3473, dated January 23, 1915. T. R. 037799 made in the Phoenix Land Office on July 6, 1915, by Walter Edwards. Owing to extensive obliterations of the Public land lines as determined by the retracements hereinafter described it was impracticable to subdivide Secs. 9 and 10. I therefore make this a notes and bounds survey, extending the exterior lines in cardinal courses rather than conforming to the record of the Public land survey, which is proven in error by my retracement of the N/2 of the line bet. secs. 9 and 10, T. 20 S., R. 31 N. This survey is therefore in the nature of a cooperative survey and will be used as a basis for substitute list and amendment of entry. Copy of signed statement from the entryman agreeing to the changes made, and further agreeing to amend his entry to conform to this survey, is attached at the end of these notes. Surveyed under special instructions from the Surveyor General for Arizona, dated May 16, 1916, and designated as Homestead Entry Survey No. 360. Situated In Secs. 4, 9 and 10, T. 20 S., R. 31 N., Gila and Salt River Base and Meridian within the Chiricahua National Forest, Arizona. Surveyed under the Acts of June 11, 1906, June 30, 1914, and March 4, 1917.

Survey commenced May 26, 1915, and executed with a Buff and Buff transit No. 9699, equipped with Smith solar attachment.

I test the adjustments of the transit and make necessary corrections.

The stadia is adjusted to read 1:132.7 to minutes.

At the cor. to sec. 3, 4, 9, and 10, T. 20 S., R. 31 E.

S. and S. R. B. and H., hereinafter described, Longitude 109°10' 20" W., Latitude 31°43’ 40" N., as derived from the Surveyor General's instructions, at 6 h. Bearing of star at time of obsh. 18 W. 0° 57' 48" W.
Chains  May 27, 1916.  I  turn off 59° 36’ to the West of point set in line of sight of first observation of last night and mark a point on a stake set 5.00 chs. N. of my station.

I also turn off 57° 49’ to the West of point set in line of sight of second observation of last night and mark a point on the stake previously set.  These two points define positions for meridians which differ by 0.2 of an inch or 10 seconds of arc.  I mark the mean of the two observations by driving a tack in the stake previously set, to be used in testing my solar.

At 8h. 30m. a.m., 1.m.t., I set off 21° 11’ 50” N. on decl. arc. and 31° 43’ 40” on the lat. arc., and determine a meridian with the solar at the cor. to secs. 3, 4, 9 and 10, T. 20 S., R. 31 E., G. and S. R. B. and M., and my line of sight falls 0.2 of an inch to the West of the meridian established by Polaris observation.

At 4h. 30m. p.m., 1.m.t., I set off 21° 15’ 13” N. on decl. arc and 31° 43’ 40” on the lat. arc., and determine a meridian with the solar at the above corner, and my line of sight falls on the meridian established by Polaris observation.  The solar attachment, by am. and p.m. observations, defines a mean position for meridian 0.1 of an inch West of the meridian established by Polaris observation.  Therefore, I conclude that the adjustments of my instrument are in satisfactory condition.

BOUNDARIES OF CLAIM

August 13, 1917.

Tract A.

I, Lee C. Daves, Surveyor Forest Service, in accordance with instructions from the District Forester, return to this survey and make the corner of Secs. 3, 4, 9 and 10, and also the 1/4 cor. bet. Secs. 9 and 10, corners of this survey.

All other corners and their witnesses of the survey were also renumbered where necessary.

Beginning at cor. No. 1.

Identical with the corner to Secs. 3, 4, 9 and 10 heretofore described. I mark same stone + on top for cor. No. 1 of this survey, and along side to South set a granite-porphyry stone 24 x 10 x 4 ins., 14 ins. in the ground, chiseled 1 H E S 360 on South face; raise a mound of stone 4 ft. base, 2 ft. high W. of cor.

No bearings available. Fits impracticable.
The magnetic declination at 10:00 a.m. is 13° 45' E., which corrected for diurnal change is 13° 44' E.

Latitude 31° 43' 40" N. Longitude 109° 10' 20" W.

from Surveyor General's Special Instructions, and later verified. One of the two iron nails was found.

Leo G. Davis of the U. S. G. S. made the survey August 13, 1917.

GENERAL DESCRIPTION

This claim is located on rolling bench land covered with loose malpais stone.

There is no timber, undergrowth, or evidence of mineral deposits on the claim.

The soil is a brown adobe, very fertile, and capable of producing good crops of grain and vegetables when properly irrigated. About one acre is fenced and planted to garden stuff.

A dug well, 25 ft. deep, near the house, supplies sufficient water for domestic use and watering about 50 head of stock.

Apache, Arizona, the nearest post office and trading place, on the El Paso and Southwestern Railway, is 2-1/2 miles East, and is reached by a fair wagon road.

CONFLICTS AND ADJOINING CLAIMS.

There are no conflicts or adjoining claims. The Jack Woods administrative site, which joined this survey on the east, has been released.
