OATH OF ASSISTANTS

We hereby certify that we assisted
Charles D. Hodson, in surveying all those
Surveyor - Draftsman parts or portions of Homestead Entry Survey No. 400, in the State of Arizona, which are represented in the following field notes as having been surveyed by him and under his direction; and that said survey has been in all respects, to the best of our knowledge and belief, well and faithfully surveyed, and the corner monuments established, according to the instructions furnished by the United States Surveyor General for Arizona.

Note: It would have been very expensive and inconvenient to appear before an officer to administer oaths to Assistants; hence, they were taken by the Surveyor.

Subscribed and sworn to before me this 1st day of October, 1915.

Homestead Entry Survey No. 400
Tusayan National Forest

Chains

Surveyed under special instructions from the Surveyor General for Arizona, dated August 10, 1915, and designated as Homestead Entry Survey No. 400.

Situated in Sec. 18, T. 24 N., R. 3 E., Gila and Salt River Base and Meridian, within the Tusayan National Forest, Arizona.

Surveyed under the acts of June 11, 1906 and March 4, 1915.

Survey commenced September 11, 1915, and executed with a Buff and Buff transit No. 9700-6, equipped with Smith solar attachment.

I test the adjustments of the transit and make necessary corrections.

All measurements were made directly on the slope with an 800 link steel tape. The slope angles were determined with a clinometer.

September 12, 1915.

At the point for the 1/4 cor. bet. secs. 7 and 18, I observe the altitude of the sun for azimuth. My watch is set for local mean time, and correction was made to apparent time. The reading on the reference object is set at zero and the sun was observed in the upper left and lower right quadrants of the field.

Lat. 35° 28' 02" N., Long. 112° 06' 55" W., obtained from the Surveyor General's special instructions, and later verified.
