OATH OF ASSISTANTS

We hereby certify that we assisted
Surveyor - Forest Service,
[Forest Service Title]
parts or portions of Homestead Entry Survey No. 586, in the State of ARIZONA which are represented in the following field notes as having been surveyed by him and under his direction; and that said survey has been in all respects, to the best of our knowledge and belief, well and faithfully surveyed, and the corner monuments established, according to the instructions furnished by the United States Surveyor General for ARIZONA.

Note: It would have been very expensive and inconvenient to appear before an officer to administer oaths to Assistants; hence, they were taken by the Surveyor.

OATH OF SURVEYOR

I, Frank D. Yost, Surveyor - Forest Service, [Forest Service Title], do solemnly swear that, in strict conformity with the special instructions of the United States Surveyor General for ARIZONA, dated March 12, 1919, and the laws of the United States, I have well, faithfully, and truly, in my own proper person, surveyed a tract of land embraced in Mat 2-2753 and 3-4114, dated August 4, 1916 and May 28, 1917, and a tract of unlisted land upon the application of W.B. Huestis,

Application No. 514, dated Sept. 1, 1914, for Listing and Patent, under the Act of June 11, 1906, the same to be known as Homestead Entry Survey No. 586, situated within the Tonto National Forest, in unsurveyed Section 26, Township 10 N., Range 13 E., and unsurveyed Section 27, Township 10 N., Range 13 E., of the GILA AND SALT RIVER BASE & meridian, ARIZONA, and the related retracements and resurveys and section subdivisions, which are represented in the following field notes as having been surveyed by me; and I further solemnly swear that all the corners of said survey have been established and perpetuated in strict accordance with the stated special instructions, and in the specific manner described in the field notes, and that the following are the original field notes of such survey.

Applicant for listing, W. B. Huestis; Application No. 514, dated September 1, 1914; List No. B-3853 and 3-4114, dated August 4, 1915 and May 28, 1917.

Also a tract of adjoining unlisted land was included in this survey. The land is similar in character to that embraced in the original listing. This is therefore a composite survey.

The changes made in this survey were for the purpose of simplifying the claim lines and to eliminate unnecessary corners. This survey includes all possible agricultural land intended to be embraced in the original listing, while excluding forest land. Copy of a signed statement from the claimant agreeing to the changes made is attached at the end of these notes.

Surveyed under Special Instructions from the Surveyor General for Arizona, dated March 12, 1919, and designated as Homestead Entry Survey No. 586.

Situated in what will probably be when surveyed Sect. 26 and 27, T. 10 N., R. 13 E., Gila and Salt River Base and Meridian, Tonto National Forest, Arizona.

Surveyed under the Acts of June 11, 1906 and October 1, 1918.

Survey commenced June 11, 1919, and executed with a Buff and Buff transit No. 10019, equipped with Smith solar attachment.

I test the adjustments of the transit and make necessary corrections.

All distances are horizontal, and were reduced from measurements made directly on the slope with a 500 link steel tape. The slope angles were determined with a clinometer.
All the courses of this survey were deflected from the meridian established by me at Cor. No. 5 of H. E. S. 584, by direct solar observation on June 11, 1919, in connection with the survey of H. E. S. 584.

Value: ____________________________ $ 100.00

Note: The claimant lives in the canyon, about 1/8 mile south of this claim, and under special use permit has erected there a log house, corral, log store house, and constructed about 1/2 mile of fence; dug two springs for domestic water supply.

DESCRIPTION

Claim consist mainly of a high level mesa, and includes some rocky slopes along the boundaries.

The soil is a light sandy loam, somewhat rocky in places, but in general of fair depth, and adapted for agricultural purposes. There is no water on the claim and dry farming methods must be depended upon to grow crops. Approximately 75 percent of the area can be cultivated of which about 30 acres were under cultivation at time of survey.

There is no timber of commercial value on the claim. I saw no indications of mineral on the claim.

**Directions:**
1. Carry out calculations to two decimals only.
2. In balancing latitudes and departures do not obliterate or change the original figures.
3. In calculations of departures take result to nearest link. In calculations of N. and S. areas drop all after second decimal. Surveyors are required to use the Standard Field Tables issued by the G. L. O.
4. Only three copies of this tabulation are necessary, for the District Office, the Surveyor General, and the Commissioners.
November 3, 1919.

I, George Spurlock, hereby agree to the survey of my homestead, number 586, as made on the 13th day of June, 1919, by Forest Service Surveyor Frank D. Yost, and further agree that when notified that the survey has been approved and before attempting to make final proof on my entry, I will apply for amendment of the same to conform with said survey.

The changes made by the Surveyor make minor exclusions of listed land along the north and east and include a little unlisted land on the south but make no attempt to include the Cane Springs or improvements in its vicinity. All changes have been made to simplify the homestead lines and the net total is a slight increase in area.

APPROVAL

Office of the United States Surveyor General,

Phoenix, Arizona, April 23, 1910

The foregoing field notes of Homestead Entry Survey No.

executed by Frank D. Hort, Surveyor. [Forest Service Title]

under his special instructions, dated March 12, 1911, having been critically examined, and the necessary corrections and explanations made, the said field notes, and the surveys they describe, are hereby approved.

[Signature]

U. S. Surveyor General.

I certify that the foregoing transcript of the field notes of the above-described survey in the State of Arizona, has been correctly copied from the original notes on file in this office.

FRANK P. TROTT

U. S. Surveyor General.
