Survey commenced May 31, 1921.

Survey completed May 31, 1921.

OATH OF ASSISTANTS

We hereby certify that we assisted Thomas F. Myers, Surveyor - Forest Service, in surveying all those parts or portions of Homestead Entry Survey No. 603, in the State of ARIZONA which are represented in the following field notes as having been surveyed by him and under his direction; and that said survey has been in all respects, to the best of our knowledge and belief, well and faithfully surveyed, and the corner monuments established, according to the instructions furnished by the United States Surveyor General for ARIZONA.

Note: It would have been very expensive and inconvenient to appear before an officer to administer Oaths to Assistants; hence they were taken by the Surveyor.

OATH OF SURVEYOR

1. Thomas F. Myers, Surveyor - Forest Service, do solemnly swear that, in strict conformity with the special instructions of the United States Surveyor General for ARIZONA, dated March 5, 1920, and the laws of the United States, I have well, faithfully, and truly, in my own proper person, surveyed a tract of land embraced in

List, No. 3-436, dated October 23, 1919, for Patent, under the Act of June 11, 1906, in

the same to be known as Homestead Entry Survey No. 603, situated within the APACHE National Forest, in

- surveyed Section 24, Township 4 N., Range 28 E., and
- un-surveyed Section 3, Township 4 N., Range 29 E., and
- un-surveyed Section 34, Township 4 N., Range 29 E.,

of the GILA & SALT RIVER BASE & meridian, ARIZONA, and the related retracements and resurveys and section subdivisions, which are represented in the following field notes as having been surveyed by me; and I further solemnly swear that all the corners of said survey have been established and perpetuated in strict accordance with the stated special instructions, and in the specific manner described in the field notes, and that the following are the original field notes of such

Homestead Entry Survey No. 602
Apache National Forest
State of Arizona

Chains
Surveyed under special instructions from the Surveyor General for Arizona, dated March 6, 1920, and designated as Homestead Entry Survey No. 602.

Situated in Sec. 24, T. 4 N., R. 28 E., surveyed and accepted, and in what will probably be when surveyed Secs. 3 and 34, Ts. 4 and 4-1/2 N., R. 29 E., Gila and Salt River Base and Meridian, Apache National Forest, Arizona.

Survey commenced May 31, 1921, and executed with a Buff and Buff transit No. 10550, equipped with Smith solar attachment.
I test the adjustments of the transit and make necessary corrections. All distances are horizontal and were reduced from measurements made directly on the slope with a 500 link steel tape. The slope angles were determined with a clinometer.

All the courses of this survey were deflected by sustained angulation from the meridian established by me by Polaris obsei on May 29, 1921, near Cor. No. 5 of HES, 596, in connection with the survey of said claim.

Retracement

Area in unsurveyed Secs. 3 and 34 — — — — — — — 143.62 A.
Total Area — — — — — — — — — — — 154.32 A.

Improvements
The improvements made upon and for the benefit of this claim consist of the following:
A log house 20x30 ft. (partially completed), the long sides extending NE and SW, the E. Cor. of which bears N. 52°46' W. 1.60 chs. from Cor. No. 9.
Value — — — — — — — — — — — $200.00
A pole corral 50 ft. in dia., the center of which bears N. 31°30' E. 2.28 chs. from Cor. No. 9.
Value — — — — — — — — — — — $50.00

Description
The claim occupies a wide, open, flat with a general slope and drainage to the NW, situated on what is locally called Milligan Creek, a small stream which traverses the western portion of the claim from SE. to NW. Approximately 120 acres of the area is suitable for agricultural purposes. The soil is a rich black loam of good depth and very fertile, and will produce good crops of hay, oats, and vegetables. There is no water on the claim for irrigation. The rainfall is depended upon to grow crops.
Water for domestic use may be obtained from Milligan Creek near Cor. No. 9 of the survey.
Chains

There is no timber of commercial value on the claim. I saw no indication of mineral on the claim.

CONFLICTS AND ADJOINING CLAIMS

There are no conflicts. The claim is joined on the east by HES 596, line 1-2 thereof being identical with 7-8 of this survey. HES 481 lies about 5/8 of a mile to NE. HES 482 lies about 1 mile to NE, and HES 480 lies about 1/2 mile to East.

Espero, Arizona, the nearest postoffice, lies about 3 miles distant in a southeasterly direction.

Alpine, Arizona, the nearest trading point, lies about 15 miles distant in a northeasterly direction and is reached by trail.

Springerville, Arizona, the general trading point for this section, lies about 24 miles distant in a northerly direction and is reached by fair wagon road.

**Sheet No. 2—Revised Feb., 1911**

**DIRECTIONS:**

1. Carry out calculations to two decimals only.
2. In balancing Latitudes and Departures do not obliterate or change the original figures. Do not change the footing of the original figures, but put below them the corrected footing in red ink.
3. In calculating for balancing figures should be proportional to the lengths of the lines.
4. In calculations of falling parts take result to nearest link. In calculations of S. and E. areas drop all after second decimal. Surveyors are required to use the Standard Field Tables issued by the G. L. O.
