OATH OF ASSISTANTS

We hereby certify that we assisted Thomas F. Myers,
Surveyor - Forest Service
(Forest Service Trk.)
parts or portions of Homestead Entry Survey No. 630, in the State of
Arizona which are represented in the following field notes as having been surveyed by him and under his direction; and that said
survey has been in all respects, to the best of our knowledge and
belief, well and faithfully surveyed, and the corner monuments estab-
lished, according to the instructions furnished by the United States
Surveyor General for Arizona.
Note: It would have been
very expensive and incon-
venient to appear before an
officer to administer oaths
to assistants; hence they
were taken by the Surveyor.

OATH OF SURVEYOR

I, Thomas F. Myers, Surveyor - Forest Service,
(Forest Service Trk.)
do solemnly swear that, in strict conformity with the special instruc-
tions of the United States Surveyor General for Arizona, dated
January 25, 1923, and the laws of the United States, I have
well, faithfully, and truly, in my own proper person, surveyed a tract
of land embraced in

Blanket List, No. 3-4559, dated December 18, 1922, for amendatory
Listing and entry, under the Act of June 11, 1906, the same to be known as Homestead Entry Survey No. 630,
situated within the Tusayan National Forest, in
—surveyed Section 31, Township 22 N., Range 6 E., and
—surveyed Section 36, Township 22 N., Range 1 E.,
of the Gila and Salt River Base & meridian, Arizona, and the
related retracements and resurveys and section subdivisions, which are
represented in the following field notes as having been surveyed by me;
and I further solemnly swear that all the corners of said survey have
been established and perpetuated in strict accordance with the stated
special instructions, and in the specific manner described in the field
notes, and that the following are the original field notes of such
survey.

Notary Public

By Oath, expires April 12, 1925.
Surveyed a tract of land embraced in Blanket List 3-4550, dated December 18, 1922, E. E. No. 065273, made in the Phoenix Land Office on May 25, 1923, by James H. Head. No cor. of the listing survey was established on the ground and no attempt was made to conform this survey to the original listing. This survey will therefore be used as a basis for amendatory listing and entry. Copy of signed statement from the entryman agreeing to the changes is attached at the end of these notes.

This is a composite survey. Surveyed under special instructions from the Surveyor General for Arizona, dated January 28, 1923, and designated as Homestead Entry Survey No. 630.

Situated in Secs. 31 and 36, T. 22 N., R. 1 and 2 E., surveyed and accepted, Gila and Salt River Base and Meridian, Tusayan National Forest, Arizona.

Survey commenced June 12, 1923, and executed with a Buff and Buff transit No. 14631, equipped with Smith solar attachment. I test the adjustments of the transit and make necessary corrections. All distances are horizontal and were reduced from measurements made directly on the slope with a 400 link steel tape. The slope angles were determined with a clinometer.

June 12, 1923.

At my station near Cor. No. 1 of this survey, hereinafter described in Lat. 35°14'30" N., Long. 112°13'54" W. from Forest Service Base Lap, at 5h. 31m. p.m. 1.m.t., I observe Polaris with telescope direct, reading an angle of 0°54'30" from star to right to reference mark about 1/2 mile northwardly of my station.

My watch is set for standard time obtained from Western Union office at Williams, Arizona.

A yellow pine 24 ins. dia. brs. N. 20° W.
37 lks. dist., blaze grown over.

The tree recorded as N. 25° E. 26 lks. has
rotted but evidence of old tree remains on
ground.
The distances to the witness trees check with the original record. The bearings as recorded in original field notes appear to have been taken with a compass without properly setting off mag. decl. This Cor. is at the Cor. of an old fence said to have been built thirty or forty years ago - only a few of the posts of the old fence are now standing.

80.00 Make careful search for Cor. Secs. 25, 20, 31 and 36, but find no evidence of same. Set temporary point.

80.29 Mound of stone at Cor. of Fence - find no marked stone.

This mound appears to have been built in recent years. Old residents in this vicinity were unable to verify position of this Cor. and evidence on ground does not warrant its acceptance; therefore continue on course and distance.

120.00 Make careful search for 1/4 Cor. between Secs. 25 and 26, but find no evidence of same. Set temporary point.

IMPROVEMENTS

The improvements made upon and for the benefit of this claim and belonging to the claimant consist of the following:

About 1/2 mile of wire fencing.

Value - - - - - - - - - - - - - - - - - - - $50.00

Claimant was living in temporary quarters on claim at time of survey.

DESCRIPTION

This claim is comprised mainly of open valley land situated about 2-1/2 miles west of Williams, Arizona, on the A. T. & S. F. Railway. Approximately 40 acres of the area are suitable for agricultural purposes, of which about 15 acres were under cultivation at the time of survey. The soil is a rich brown loam of good depth and very fertile. The rainfall in this vicinity is sufficient to grow crops without irrigation.

Water for domestic use is obtained from an old well situated about 8 chs. northwesterly from Cor. No. 10. A small amount of timber along the boundaries of the claim was included in the survey.

I saw no indication of mineral on the claim.

CONFLICTS AND ADJOINING CLAIMS

There are no conflicts. The claim is joined partly on the east by patented H.E. 014200 of Herbert O. Sanders, described by legal subdivisions, and on the north by H.E. 047068, described by legal subdivisions, entered by William Cole under date of May 14, 1920.

**Notes:**
- Carry out calculations to two decimals only.
- In calculations of fallings take result to nearest inch. In calculations of N. and S. areas drop all after second decimal. Surveyors are required to use the Standard Field Tables issued by the G. L. O. and the Commissioner.
- Only three copies of this tabulation are necessary, for the District Office, the Surveyor General, and the Commissioner.

---

**Directions:**
1. Carry out calculations to two decimals only.
2. In calculating Latitudes and Departures do not obliterate or change the original figures. Put the corrected figure or figures above in red ink. Do not change the footing of the original figures, but put below them the corrected footing in red ink.
3. In calculations of fallings the corrections should be proportional to the lengths of the lines.
