OATH OF ASSISTANTS

We hereby certify that we assisted

Surveyor - Forest Service

in surveying all those

parts or portions of Homestead Entry Survey No. 635, in the State of Arizona which are represented in the following field notes as having been surveyed by him and under his direction; and that said survey has been in all respects, to the best of our knowledge and belief, well and faithfully surveyed, and the corner monuments established, according to the instructions furnished by the United States Surveyor General for Arizona.

Note: It would have been very expensive and inconvenient to appear before an officer to administer Oaths to Assistants; hence they were taken by the Surveyor.

Subscribed and sworn to before me this 21st day of August, 1925.

Chairman

OATH OF SURVEYOR

1. Thomas P. Myers, Surveyor - Forest Service

I, Thomas P. Myers, Surveyor - Forest Service, do solemnly swear that, in strict conformity with the special instructions of the United States Surveyor General for Arizona, dated March 19, 1925, and the laws of the United States, I have well, faithfully, and truly, in my own proper person, surveyed a tract of land embraced in

List No. 3-2479, dated April 15, 1913, and B. & B., June 21, 1918, the same to be known as Homestead Entry Survey No. 635, situated within the Sitgreaves National Forest, in the Gila and Salt River Base & meridian, Arizona, and the related retracements and resurveys and section subdivisions, which are represented in the following field notes as having been surveyed by me; and I further solemnly swear that all the corners of said survey have been established and perpetuated in strict accordance with the stated special instructions, and in the specific manner described in the field notes; and that the following are the original field notes of such

Subscribed and sworn to before me this 5th day of January, 1924.

Notary Public.

My Commission expires: April 12, 1925.

Also a tract of unlisted land adjoining claimant's entry was included in this survey, to include improvements belonging to the entryman. The land is agricultural in character, was desired by entryman and will be listed as a basis for amendment of his entry.

Surveyed under special instructions from the Surveyor General for Arizona, dated March 19, 1923, and designated as Homestead Entry Survey No. 655.

Situated in Secs. 1 and 12, T. 10 N., R. 20 E., Gila and Salt River Base and Meridian, Sitgreaves National Forest, Arizona.

Survey commenced August 15, 1923, and executed with a Buff and Buff transit No. 14661, equipped with Smith solar attachment.

I test the adjustments of the transit and make necessary corrections.

All distances are horizontal, and were reduced from measurements made directly on the slope with a 400 link steel tape. The slope angles were determined with a clinometer.

August 17, 1923.

At the Cor. of Secs. 6 and 7, T. 20 N., R. 21 E., which is also Cor. No. 1 of this survey and Cor. No. 2 of H. E. S. 634, hereinafter described, in Latitude 34°16' 50" N., Longitude 110°09'36" W. from Forest Service Base Map, at 6h 45m 36s p.m. 1.m.t., I observe Polaris.

DESCRIPTION

The area embraced in this homestead is comprised mainly of level valley land surrounded by low rolling hills on the North, West and South. The soil on the bottom land which comprises approximately 40 acres is a rich, dark loam of good depth and very fertile. The hillside
Chains

are rocky and covered with cedar, oak brush and
scattering pine, and fit for grazing land only.
About 25 acres were under cultivation at the time of
survey. The rainfall is depended upon to grow crops.
Water for domestic use and for watering a small herd of
goats is obtained from the well in the northern portion
of the claim.

There is no timber of commercial value on the claim.
I saw no indications of mineral on the claim.

CONFlicts AND ADJOINING CLAIMS

There are no conflicts. The claim is joined on the East
by W.E. 028567 of Jesse R. Jervis, patented July 7, 1916,
and on the North and East by RES. 634 of Lewis Smalbon
and on the South by List 3-6545, dated January 30, 1924.
Linden, Arizona, the nearest postoffice, lies about 1-1/2
miles distant in a southeasterly direction.

Snowflake, Arizona, the main trading point in this
vicinity, lies about 20 miles distant in a northeasterly
direction and is reached by good roads.

Survey completed August 21, 1926.

APPROVAL

Office of the United States Surveyor General,

Phoenix, Arizona, April 4, 1924

The foregoing field notes of Homestead Entry Survey No.

635

executed by Thomas F. Myers, Surveyor,

under his special instructions, dated March 19, 1923, having been critically examined, and the necessary corrections and explanations made, the said field notes, and the surveys they describe, are hereby approved.

Charles W. Donohoe
U. S. Surveyor General.

I certify that the foregoing transcript of the field notes of the above-described survey in the State of Arizona, has been correctly copied from the original notes on file in this office.

Charles W. Donohoe
U. S. Surveyor General.
