Survey executed by Thomas F. Myers, Surveyor - Forest Service
Under special instructions dated June 25
Survey commenced July 2
Survey completed July 8
OATH OF ASSISTANTS

We hereby certify that we assisted Thomas F. Myers, Surveyor - Forest Service in surveying all those parts or portions of Homestead Entry Survey No. 638, in the State of Arizona, which are represented in the following field notes as having been surveyed by him and under his direction; and that said survey has been in all respects, to the best of our knowledge and belief, well and faithfully surveyed, and the corner monuments established, according to the instructions furnished by the United States Surveyor General for Arizona.

Note: It would have been very expensive and inconvenient to appear before an officer to administer Oaths to Assistants; hence they were taken by the Surveyor.

Chairman

Surveyor - Forest Service.

OATH OF SURVEYOR

1. Thomas F. Myers, Surveyor - Forest Service, do solemnly swear that, in strict conformity with the special instructions of the United States Surveyor General for Arizona, dated June 25, 1923, and the laws of the United States, I have well, faithfully, and truly, in my own proper person, surveyed a tract of land embraced in

List No. 3-4435, dated April 21, 1921, for

patent under the Act of June 11, 1906,

situated within the Coconino National Forest, in

surveyed Section 5, Township 19 N., Range 9 E., and

surveyed Section ----, Township ----, Range ----

of the Gila and Salt River Base and meridian, Arizona, and the related retracements and resurveys and section subdivisions, which are represented in the following field notes as having been surveyed by me; and I further solemnly swear that all the corners of said survey have been established and perpetuated in strict accordance with the stated special instructions, and in the specific manner described in the field notes, and that the following are the original field notes of such

Subscribed and sworn to before me this 17th day of December, 1923.

Surveyor - Forest Service.

Notary Public.

My commission expires April 12, 1925.
Surveyed a tract of land embraced in List 3-4456, dated April 21, 1921; R. R. No. 054761, made in the Phoenix Land Office on December 26, 1922, by Peter L. Zion.

Surveyed under special instructions from the Surveyor General for Arizona, dated June 25, 1922, and designated as Homestead Entry Survey No. 428.

Situated in Sec. 6, T. 19 N., R. 9 E., surveyed and accepted, Gila and Salt River Base and Meridian, Coconino National Forest, Arizona.

Survey commenced July 2, 1923, and executed with a Buff and Buff transit No. 14631, equipped with Smith solar attachment.

I test the adjustments of the transit and make necessary corrections.

All distances are horizontal and were reduced from measurements made directly on the slope with a 400 link steel tape. The slope angles were determined with a clinometer.

July 2, 1923.

At my station near Corr. No. 5 of this survey, herein-after described, in Latitude 35°25'22" N., Longitude 111°38'55" W. from Forest Service Base Map, at 6h. 56m. 22s. p.m. 1.m.t., I observe Polaris with telescope direct, reading an angle of 0°24' from star to right to reference mark about 10' o.s. northwardly of my station.

Greenwich m.t. U. C. Polaris, July 2, 1923, 6h 56.4m a.m.

1.m.t. U. C. Polaris, July 2, 1923, 6h 55.2m a.m.

1.m.t. Oben. Polaris, July 2, 1923, 6h 55.4m p.m.

Hour angle 11h 00.2m.
CHAINS

Azimuth of Polaris: 0°20' W.

Bearing of Reference Mark: N, 0°04'30" E.

At same station at 6th 56m. 37s. P.M. l.m.t., I again observe Polaris with telescope reversed, reading an angle of 0°28'50" from star to right to same reference mark.

1.m.t. U. C. Polaris, July 2, 1922, 6th 56.2m a.m.

1.m.t. Obs. Polaris, July 2, 1922, 6th 56.6m p.m.

Hour angle: 11h 01.4m

Azimuth of Polaris: 0°19.6'00" W.

Bearing of reference mark: N. 0°03'39" E.

The bearing of reference mark as determined from the mean of the two observations is N. 0°03'57" E.

I accept bearing of reference mark as N. 0°04'30" E.

and from the corresponding meridian all the courses of this survey were deflected by sustained angulation.

RETRACMENTS AND RESUMBES

July 2, 1922.

Beginning at the Cor. of Tsp. 19 and 20 N., Rs. 8 and 9 E., an old wooden stake in mound of stone. Old stake is badly decayed but a portion of the markings, as described by the Surveyor General, are still legible.

I restore Cor. at same point as follows: Set a marble stone 24x10x10 ins. 14 ins. in ground, chiselled on top, 6 notches on N., E., W. and S. edges, T 20 N. on NW. face, R 8 E. on SW. face, T 19 N. on SE. face and R 9 E. on NE. face; set piece of old Cor. post alongside of Cor., and raise mound of stone 2 ft. base 1-1/2 ft. high south of Cor.

No witnesses available.

Thence South.

Retracing line between Secs. 1 and 6, T. 19 N., Rs. 8 and 9 E.

40.00 Make careful search for 1/4 Cor. but find no evidence of same.
Chains 30.23
Fall 251 lns. W. of Cor. of Secs. 1, 6, 7 and 12, a pine post, 4 ins. square, 2 ft. long, marked and witnessed as described by the Surveyor General. Post is badly decayed. I therefore restore Cor. as follows:
Set a malpais stone 24x14x6 ins. 16 ins. in ground, chiseled + on top, 1 notch on N. and 5 notches on S.
Set original stake alongside, and raise a mound of stone 2 ft. base 1-1/2 ft. high W. of Cor.
Thence N. 1°39' W.
On true line between Secs. 1 and 6.
40.13
I again make careful search for 1/4 Cor. but find no evidence of same. At this point, I reestablish 1/4 Cor. as follows: Set a malpais stone 30x310 ins. 15 ins. in ground, chiseled + on top and 1/4 on W. face; raise mound of stone 2 ft. base 1-1/2 ft. high W. of Cor.; whence:
A pine 6 ins. dia. brs. S. 29°30' W. 7 lns.

Value - - - - - - - - - - - - - $10.00

GENERAL DESCRIPTION

The claim is comprised mainly of open bottom land bordered by low hills on the N. and S., lying about two miles southeasterly from the SE. end of Lake Mary. The area has a general drainage to the NW. The soil in the bottom land is a rich black loam of good depth and very fertile. The hillsides are rocky and suitable for grazing lands only. About 20 acres of the area are suitable for agricultural purposes, of which possibly 7 acres show signs of having been under cultivation in the past. None of the area, however,
Chains was under cultivation at the time of survey.

Water for domestic use is obtained from Flagstaff, being hauled in tank car on the logging railway. It is believed water could be obtained at a shallow depth on the claim.

There is no timber on the claim.

There are no indications of mineral on the claim.

CONFLICTS AND ADJOINING CLAIMS

There are no conflicts. The claim is joined on the north and west by H. E. 428, patented by D. Chisholm on October 20, 1897; on the east by H. E. 077, patented by Donald Chisholm on April 7, 1914; and on the south by legal subdivisions, portion of claimant’s entry described as the N/2 NE/4 SW/4 Sec. 6.

Flagstaff, Arizona, the nearest postoffice and trading point lies about 15 miles in a northwesterly direction and is reached by a good wagon road.

Survey completed July 8, 1923.

**Note:** The table includes calculations for the homestead entry survey, including distances, latitudes, departures, and area calculations. The entries are formatted with specific instructions for carrying out calculations and ensuring accuracy in the surveying process. The table also notes the state of Arizona and includes a closing error for accuracy checks. The data is consistent and well-structured, providing a clear view of the land survey calculations.
