OATH OF ASSISTANTS

We hereby certify that we assisted L. C. Daves, Chief Surveyor in surveying all those parts or portions of Homestead Entry Survey No. 654, in the State of Arizona which are represented in the following field notes as having been surveyed by him and under his direction; and that said survey has been in all-respects, to the best of our knowledge and belief, well and faithfully surveyed, and the corner monuments established, according to the instructions furnished by the United States Surveyor General for Arizona.

Note: It would have been very expensive and inconvenient to appear before an officer to administer oath to assistant. Hence it was taken by the Surveyor.

Subscribed and sworn to before me this 29th day of June, 1929.

Chief Surveyor.

Chief Surveyor. [Forest Service Title]

Notary Public

[Seal]
This tract of land was surveyed for listing and patent, under special instructions from the office of Public Surveys, dated October 24, 1923, and designated as Homestead Entry Survey No. 654. Situated in Sec. 6, T. 18 N. R. 9 E. and Sec. 31, T. 19 N. R. 9 E., Gila and Salt River Base and Meridian, Coconino National Forest, Arizona.

Survey commenced May 15, 1929, and executed with Buff and Buff transit No. 14531.

The adjustments of the transit were examined and the necessary corrections made before beginning the Survey.

All distances are horizontal and were reduced from measurements made directly on the slopes with a 500-link steel tape. The slopes were determined with the transit.

The bearings of the several courses of this survey are connected by sustained angulation to Corner 11 of HSB 854, hereafter described, where an observation of Polaris was made for azimuth. The observation will appear at the end of these notes.
