PRELIMINARY OATHS OF ASSISTANTS.

WE, T. Y. White and Oscar W. Fetters
do solemnly swear that we will well and faithfully execute the duties of chainmen; that we will level the chain upon even and uneven ground, and plumb the tally pins, either by sticking or dropping the same; that we will report the true distances to all notable objects, and the true lengths of all lines that we assist in measuring, to the best of our skill and ability, and in accordance with instructions given us, in the survey of

W. and N. Bedrias of Tp 29 N. R. 17 E of the G. & S. R. Base & Mer., Arizona.
T. Y. White, Chainman.
Oscar W. Fetters, Chainman.

Subscribed and sworn to before me this 26th
day of Sept., 1910

Van L. White
U.S. Transitman

I, Ralph C. Sampson and
do solemnly swear that ~~we~~ will well and truly perform the duties of moundman in the establishment of corners, according to the instructions given ~~me~~ to the best of ~~my~~ skill and ability, in the survey of

W. and N. Bedrias of Tp 29 N. R. 17 E of the G. & S. R. Base & Mer. Arizona
Ralph C. Sampson, Moundman.

Subscribed and sworn to before me this 26th
day of Sept., 1910

Van L. White
U.S. Transitman

WE, George B. Seig and Nelson Polacca
do solemnly swear that we will well and truly perform the duties of axmen in the establishment of corners and other duties, according to instructions given us, to the best of our skill and ability, in the survey of

W. and N. Bedrias of Tp 29 N. R. 17 E of the G. & S. R. Base & Mer. Arizona
George B. Seig, Axman.
Nelson Polacca, Axman.

Subscribed and sworn to before me this 26th
day of Sept., 1910

Van L. White
U.S. Transitman

I, William R. Carson, do solemnly swear that I will well and truly perform the duties of flagman according to instructions given me, to the best of my skill and ability, in the survey of W. and N. Bedrias of Tp 29 N. R. 17 E of the G. & S. R. Base & Mer., Arizona.

William R Carson, Flagman.

Subscribed and sworn to before me this 26th
day of Sept., 1910

Van L. White
U.S. Transitman

Survey commenced September 26th 1910, and executed with a Young & Sons' light mountain transit No 10 with a Smith solar attachment, the horizontal limb being provided with two double verniers placed opposite to each other reading to single minutes of arc, which is also the least count of the verniers of the latitude and declination arcs. Examine the adjustments of the transit and correct the level and collimation errors, then to test the solar apparatus by comparing its indications resulting from solar observations made during a.m. and p.m. hours with a meridian established by observations on Polaris. Proceed as follows.

On my camp which is located near the S.E. cor. of Twp 29 N. R 13 and 14 E., Latitude $35^{\circ} 51' 30''$ N., Longitude $110^{\circ} 53' 38''$ W. At $3^h 52^m$ p.m. l.m.l. Det. off. $35^{\circ} 51\frac{1}{2}'$ N. on the lab. arc, $1^{\circ} 09\frac{1}{2}'$ S. on the decl. arc, and determine a meridian with the solar, and mark a point thereof by a tack driven in a stake set in the ground 5.00 Chs. N. of my instrument.

At $7^h 13^m$ p.m. l.m.l. by my watch which is correct local mean time observe Polaris at Eastern elongation in accordance with the instructions in the Manual and mark the direction thus determined by a tack driven in a stake set in the ground 5.00 Chs. N. of my instrument.

September 26th 1910

September 27th 1910 At $7^h 00^m$ a.m. l.m.l. lay off the azimuth of Polaris $1^{\circ} 27'$ to the west and mark the meridian thus determined by a tack driven in the stake set last evening, on which the meridian falls .5 in E. of the meridian established by the solar observation. At $7^h 22^m$ a.m. l.m.l. Det. off. $35^{\circ} 51\frac{1}{2}'$ N. on the lab. arc, $1^{\circ} 24'$ S. on the decl. arc, and determine a meridian with the solar, and mark a point thereof by a tack driven in the stake already set 5.06 Chs. N. of my instrument. This point

Chain

West boundary of Twp 29 N. R. 14 E.

fallv., 11 ins, East. of the point established by the Polaris observation,
The solar apparatus by p.m. and a.m. observations defines positions for meridians respectively about 0'26" West. and 0'05" East of the meridian established by the Polaris observation therefore conclude that the instrument is in satisfactory adjustment.

Begin at the Stand. Corner of Twp. 29 N., R. 13 and 14 E. which I assisted to establish. January 11th 1910, as ^{described in Standard Book "K"} Latitude 35° 51' 28" N. Longitude 110° 53' 38" W.

At 7^h 52^m a.m. l.m.t. Sun off 35° 51½' N. on the hor. arc 1° 25' S. on the decl. arc and determine a meridian with the solar, then proceed

North, to sec. 31 and 36,
Around S.E. slope over rolling sandy land through sage and greasewood bush undergrowth and bunch grass.

40.00 Set an iron post 3 ft. long, 1 in. in diam. 26 ins in the ground for 1/4 cor. marked on brass Cap. 1/4 S 36 on W. half. and S 31 on E. half.

Dig pits 18 x 18 x 12 ins. N. and S. of post. 3 ft. dia. and raise a mound of earth 3½ ft. base, 1½ ft. high W. of cor.

47.50 Top of sand ridge bears N.E. and S.W. dir. Leave rolling land bears N.E. and S.W. Enter hilly land.

71.30 Prekharus course S.W. arc.

79.56 Top of ridge bears N.E. and S.W. dir.

80.00 Set an iron post 3 ft. long 3 ins. in diam. 24 ins in the ground for cor. of sec. 25, 30, 31 and 36. marked on brass Cap. T 29 N. in N. half R 13 E. S 25 in N.W., R 14 E. S 30 in N.E., S 31 in S.E. and S 36 in S.W. quadrant.

Raise a mound of stone 2 ft. base 1½ ft. high W. of cor. Pits impracticable
Land rolling and hilly,
Soil sandy 3rd rate. I
No timber

North boundary of Twp. 29 N. R. 14 E.

Chain

7

Survey commenced September 28th 1910 and executed with a Young & Sons light mountain transit No 10 with a Smith solar attachment. The horizontal limb is provided with two double verniers placed opposite to each other reading to single minutes of arc, which is also the least count of the verniers of the latitude and declination arcs.

I examined the adjustments of the transit and find them perfect, and know from recent tests of the solar apparatus, by comparing its indications resulting from solar observations made during a.m. and p.m. hours with a meridian determined by observations on Polaris, that the instrument is in satisfactory adjustment.

For last complete test of the instrument see field notes of the survey of the East boundary of Twp. 29 N. R. 13 E. on page 1 of this book.

I begin at the Cor. of Twp. 29 and 30 N., R. 14 and 15 E. established by Sidney E. Burt, April 26, 1909 which is an iron post 3 ins. in diam., 12 ins. above ground, firmly set, marked T 30 N. in N. half, T 29 N. in S. half, R. 14 E. S. 36 in N.W. R. 15 E. S. 31 in N.E. R. 15 E. S. 6 in S.E. and R. 14 E. S. 1 in S.W. quadrant, with pile N., E., & W., and mound of earth S. of Cor. Lat. $35^{\circ}56'41''$ N. Long. $110^{\circ}47'13''$ W. At 7^h 21^m a.m. limb set off $35^{\circ}56\frac{1}{2}'$ N. on the lat. arc, $1^{\circ}47'$ S. on the decl. arc and determined a meridian with the solar, thence I run,

West, on a random line, along the N. lobby of Twp. 29 N. R. 14 E., setting temp. $\frac{1}{4}$ sec. and sec. cor. at intervals of 40.00 Chs. and at 479.62 Chs. intersect N. and S. line 48 lbs. N. of the Cor. of Twp. 29 and 30 N. R. 13 and 14 E. which I established September 27th 1910 as hereinbefore described.

The falling answers to a correction of $0^{\circ}03'$, on 8 lbs. S. per mill counting from the N.E. Cor. of the Twp.; therefore I run

N. $89^{\circ}57'$ E., bet. sec. 6 and 31, marking and blazing the true line,

Ascend W. slope over rolling sandy land through scattering sage brush undergrowth and bunch grass.

36.60 Top of sand ridge toward N. and S. desc. E. slope.

39.62 Set an iron post 3 ft. long 1 in. in diam. 26 ins. in the

North boundary of Tp 29N, R14 E.

ground for $\frac{1}{4}$ sec. cor. marked on brass cap $\frac{1}{4}$ S 31
on N. half and S 6 on S. half.

Dig pits 18x18x12 ins. E and W of post 3 ft. dist. and
raise a mound of earth $3\frac{1}{2}$ ft. base, $1\frac{1}{2}$ ft. high N.
of cor.

72.77 Road from Oraibi, Arizona to Nuba, Arizona bears
 $N 20^{\circ} E$ and $S 20^{\circ} W$. Enter scattering cedar timber
bears $N 20^{\circ} E$ and $S 20^{\circ} W$

79.62 Set an iron post 3 ft. long 3 ins. in diam. 24 ins. in
the ground for cor. of secs. 5, 6, 31, and 32, marked on
brass cap. R 14 E. in E. half. T 30 N. S 32 in N.E., T 29 N.
S 5 in S.E. S 6 in S.W. and S 31 in N.W. quadrant.
from which.

A cedar 25 ins. in diam. bears $N 80^{\circ} E$. 141 lbs. dist. marked
T 30 N, R 14 E, S 32 B.T. and

A cedar 15 ins. in diam, bears $S 28\frac{1}{2}^{\circ} E$ 75 lbs. dist
marked T 29 N, R 14 E, S 5 B.T. No other trees available
Dig pits 24x24x12 ins in each sec. N.W. and S.W.
of post $5\frac{1}{2}$ ft. dist. and raise a mound of earth 4 ft.
base 2 ft. high W. of cor.

General Description

This township is rough and hilly in the western and north western parts, rolling in the interior and nearly level in the south eastern part.

Nearly the entire township can be classed as prairie land.

The township is poorly watered and poorly timbered. The soil of the bottom land along the De Nebets Wash is a sandy loam capable of producing good crops.

The township should be subdivided.

September 28th 1910.

Van L. White
U.S. Meas. itman

U.S. TRANSITMAN
FINAL OATHS OF ~~DEPUTY SURVEYOR~~ AND HIS ASSISTANTS.

LIST OF NAMES.

A list of the names of the individuals employed by Van L. White
U.S. Transitman, ~~United States Deputy Surveyor~~, to assist in running, measuring, and
marking the lines and corners described in the foregoing field notes of the survey of Ward N.
Bedrys Tp. 29 N. R 17 E. of the G. & S. R. Base & Mer. Arizona
showing the respective capacities in which they acted:

- T. Y. White, Chainman.
- Oscar W. Fetter, Chainman.
- Ralph C. Sampson, Moundman.
- George B. Seig, Axman.

We hereby certify that we assisted Van L. White
U.S. Transitman, ~~United States Deputy Surveyor~~, in surveying all
those parts or portions of the Ward N. Bedrys Tp 29 N. R.
17 E.

of the Gila and
Salt River Base and Meridian, Territory of Arizona, which are represented
in the foregoing field notes as having been surveyed by him and under his direction; and that said survey
has been in all respects, to the best of our knowledge and belief, well and faithfully ~~surveyed~~ ^{executed}, and the
corner monuments established, according to the instructions furnished by the ~~United States Surveyor~~

~~General for~~ Commissioner of the General Land Office

- T. Y. White, Chainman.
- Oscar W. Fetter, Chainman.
- Ralph C. Sampson, Moundman.
- George B. Seig, Axman.
- Nelson Polacco, Axman.
- William R. Carson, Flagman.

Subscribed and sworn to before me this 13th
day of Oct, 1910

Van L. White
U.S. Transitman

TRANSITMAN
FINAL OATH OF UNITED STATES DEPUTY SURVEYOR

I, Van L. White, ^{Transitman} United States Deputy Surveyor, do solemnly swear that, in pursuance of ~~a contract~~ ^{Special Instructions} received from ~~the Commissioner of the~~ ^{the Commissioner of the} United States Surveyor General for ~~General Land Office~~ ^{General Land Office}, bearing date of the ~~2nd day of Oct. 1907~~ ^{15th day of May} 1908, I have well, faithfully, and truly, in my own proper person, and in strict conformity with the instructions furnished by the ~~United States Surveyor General~~ ^{Commissioner} of the ~~General Land Office~~ ^{General Land Office}, the Manual of Surveying Instructions, and the laws of the United States, surveyed all those parts or portions of the West & North Edges of Township No. 29 North of Range No. 14 East

of the Gila and Salt River Base and Meridian, in the Territory of Arizona, which are represented in the foregoing field notes as having been surveyed by me, and under my direction; and I do further solemnly swear that all the corners of said survey have been established and perpetuated in strict accordance with the Manual of Surveying Instructions, and the special written instructions of the ~~United States Surveyor General~~ ^{Commissioner} of the ~~General Land Office~~ ^{General Land Office} and in the specific manner described in the field notes, and that the foregoing are the original field notes of such survey.

Van L. White
~~United States Deputy Surveyor~~
^{Transitman}

Subscribed by said Van L. White, and sworn to before me }
this 27th day of December, 1912.

Lytton R. Taylor
U.S. Commissioner
at Las Vegas, N.M.

APPROVAL.

OFFICE OF THE UNITED STATES SURVEYOR GENERAL,

Phoenix, Arizona, APR 26, 1914

The foregoing field notes of the survey of the
