FIELD NOTES

OF THE SURVEY OF THE

Subdivision lines of Tp 31 N. R. 15 E.

[Blank lined area for notes]

*Of the Gila and Salt River Base and Meridian,
in the Territory of Arizona*

EXECUTED
AS SURVEYED BY

*Van L. White U.S. Practitioner, ~~United States Deputy Surveyor~~,
Special Instructions from the Commissioner of the General Land Office,
Under ~~his Contract No.~~, dated *Oct 2nd 1907*, and *May 15th 1908**

Survey commenced *December 22nd*, 1910

Survey completed *January 6th*, 1911

PRELIMINARY OATHS OF ASSISTANTS.

WE, J. V. White, George B. Seig and Richard L. Shumway
do solemnly swear that we will well and faithfully execute the duties of chainmen; that we will level the chain upon even and uneven ground, and plumb the tally pins, either by sticking or dropping the same; that we will report the true distances to all notable objects, and the true lengths of all lines that we assist in measuring, to the best of our skill and ability, and in accordance with instructions given us, in the survey of

the Subdivision lines of Tp 31 N. R. 15 E. G. & S. P. B. & M. Arizona.

George B Seig }
J. V. White, Chainman.
Richard L Shumway, Chainman.

Subscribed and sworn to before me this 20th
day of December, 1910

Van L. White
U.S. Transitman

I, Rolph C. Sampson

do solemnly swear that we will well and truly perform the duties of moundman in the establishment of corners, according to the instructions given ~~me~~ to the best of ~~my~~ skill and ability, in the survey of

the Subdivision lines of Tp 31 N. R. 15 E. G. & S. P. B. & M. Arizona.

Rolph C. Sampson, Moundman.

Subscribed and sworn to before me this 20th
day of December, 1910

Van L. White
U.S. Transitman

I, Nelson Polacca

do solemnly swear that we will well and truly perform the duties of axman in the establishment of corners and other duties, according to instructions given ~~me~~ to the best of ~~my~~ skill and ability, in the survey of

the Subdivision lines of Tp 31 N. R. 15 E. G. & S. P. B. & M. Arizona.

Nelson Polacca, Axman.

Subscribed and sworn to before me this 20th
day of December, 1910

Van L. White
U.S. Transitman

I, William R Carson

do solemnly swear that I will well and truly perform the duties of flagman according to instructions given me, to the best of my skill and ability, in the survey of

the Subdivision lines of Tp 31 N. R. 15 E. G. & S. P. B. & M. Arizona.

William R Carson, Flagman.

Subscribed and sworn to before me this 20th
day of December, 1910

Van L. White
U.S. Transitman

Survey commenced December 22nd 1910 and executed with a W & P. E. Gurley engineers transit No. 76 with a Burk solar attachment. The horizontal limb being provided with one double vernier reading to single minutes of arc. The verniers of the latitude and declination arcs, reading to 0' 30" of arc.

I examine the adjustments of the transit and correct the level and collimation errors; then, to test the solar apparatus, by comparing its indications, resulting from solar observations made during a.m. and p.m. hours with a meridian determined by observations on Polaris. I proceed as follows:

At my camp, which I have located near the point for Cor. of Secs. 15, 16, 21 and 22 Twp. 31 N., R15 E. Latitude $36^{\circ} 04' 30''$ N., Longitude $110^{\circ} 44' 41''$ W. I set off $36^{\circ} 04' 2''$ N. on the lat. arc and $23^{\circ} 23' 3''$ on the decl. arc and at $3^h 59^m$ p.m. l.m.t., determine with the solar a meridian and mark a point thereof, by a tack driven in a stake set firmly in the ground 5.00 chs. N. of my instrument.

At $9^h 47^m$ p.m. by my watch which is correct local mean time I observe Polaris, in accordance with instructions in the Manual and mark the direction thus determined by a tack driven in a stake set in the ground 5.00 chs. N. of my instrument.

Astronomical time of observation Dec 22nd 1910 $9^h 47^m$

Astron. time U.C. Polaris Dec. 21 (Table V, Part I) $7^h 53.3^m$

Reduction to Dec. 22 (Part II) Subtract 27.6

Astron. time U.C. Polaris, Dec 22. $7^h 25.7$ Subtract 7 25.7

Hour angle and time argument of Polaris at obs. $2 21.3$

Azimuth of Polaris at observation $0^{\circ} 51' W.$

December 22nd 1910.

December 23rd 1910 at $7^h 30^m$ a.m. l.m.t. I lay off the azimuth of Polaris $0^{\circ} 51'$ to the east, and mark the meridian thus determined by a tack driven in the stake set last evening, on which the meridian falls 0.6 ins east of the point determined by the Solar.

At $7^h 59^m$ a.m. l.m.t. I set off $36^{\circ} 04' 2''$ N. on the lat.

BOOK 2621

arc. $23^{\circ} 22\frac{1}{2}' S.$ on the decl. arc, and determined a meridian with the solar and mark a point thereof by a tack driven in the stake already set 5.00 ch. N. of my instrument; this point falls 0.3 in. East of the meridian established by the Polaris observation. The solar apparatus by p.m. and a.m. observations defines positions for meridians, respectively about $0' 31''$ West, and $0' 15''$ East of the meridian established by the Polaris observation, therefore I conclude that the instrument is in satisfactory adjustment.

I begin at the cor. of sec. 1, 2, 35 and 36. on S. 1/2 of Np. estab. by Sidney E. Blunt, May 13, 1909 as described in Extensor Book "X" latitude $36^{\circ} 01' 54'' N.$ longitude $110^{\circ} 41' 52'' W.$

At 8^h 57^m. a.m. I set off $36^{\circ} 02' N.$ on the lat. arc, $23^{\circ} 24\frac{1}{2}' S.$ on the decl. arc and determined a meridian with the solar, thence I run,

$N. 0^{\circ} 01' W.$; 1/4 sec. 35 and 36;

across SW slope over hilly sandy land, through scattering cedar timber and sage and greasewood brush undergrowth and bunch grass

8.00 Top of sand ridge bears NW. and S.E. desc.

8.90 Dry ravine 20 lks. wide course S.E. asc.

16.00 Road from Oraibi, Arizona to Tubg, Arizona, bears N.W. and S.E.

40.00 Set an iron post 3 ft. long 1 in. in diam. 26 in. in the ground for cor. marked out brass cap 1/4 S 35 on W. half and S 36 on E. half, from which

a cedar 7 ins. in diam. bears $N 88\frac{1}{4}^{\circ} E$ 244 lks. dist. marked 1/4 S 36 B.T. and

a cedar 4 ins. in diam. bears $S 45^{\circ} W.$ 109 lks. dist. marked 1/4 S 35 B.T.

40.00 Top of divide between the De Nebito and Moencopie Washes. bears E. and W. desc.

69.00 Last timber bears E. and W.

80.00 Set an iron post 3 ft. long 2 ins. in diam. 24 ins. in the ground for cor. of sec. 25, 26, 35, and 36. marked out brass cap T 31 N, S 26 in NW., R 15 E, S 25 in NE. S 36 in SE. and S 35 in SW. quadrants.

Dig pits 18 x 18 x 12 ins. in each sec, 5 1/2 ft. dist. and raise a mound of earth 4 ft. base, 2 ft. high W. of cor.

Land hilly.

- Exterior Book "X", thence I run,
 N. 0° 03' W., 31 and 32,
- Descend N.E. slope over rolling sandy land through
 scattering sage and greasewood brush undergrowth
 and bunch grass.
- 20.70 Road to Tuba, Arizona bears E and W.
- 40.00 Set an iron post 3 ft. long, 1 in. in diam. 26 ins in
 the ground for $\frac{1}{4}$ sec. cor. marked on brass cap $\frac{1}{4}$ S
 31 on W. half and S 32 on E. half.
 Dig pits 18 x 18 x 12 ins. N and S. of post 3 ft. deep.
 and raise a mound of earth $3\frac{1}{2}$ ft. base, $1\frac{1}{2}$ ft. high.
 W. of cor.
- 52.50 Enter scattering cedar timber bears E and W
- 77.80 Sand stone ledge 10 ft. high. bears rolling land
 bears E and W. Enter stony hilly land. desc steep
 N slope.
- 80.00 Set an iron post 3 ft. long, 2 ins. in diam. 24 ins in
 the ground for cor. of sec. 29, 30, 31 and 32. marked
 on brass cap T 31 N. S 30 in NW, R 15 E. S 29 in N.E.
 S 32 in S.E. and S 31 in S.W. quadrants. from which.
 A pinon pine 8 ins. in diam. bears N 54 $\frac{1}{2}$ ° E 34 lbs.
 dish, marked T 31 N, R 15 E. S 29 B.T.
 A cedar 14 ins. in diam. bears S 19 $\frac{1}{2}$ ° E 116 lbs. dish.
 marked T 31 N, R 15 E S 32 B.T.
 A cedar 10 ins. in diam. bears S 54° W 34 lbs. dish.
 marked T 31 N, R 15 E, S 31 B.T. and
 A cedar 12 ins. in diam. bears N 55 $\frac{3}{4}$ ° W 138 lbs. dish.
 marked T 31 N, R 15 E. S 30 B.T.
 Land rolling and hilly.
 Soil sandy and stony 6^{th} and 14^{th} rates.
 Main trees pinon pine and cedar

- N. 89° 59' E, on a random line, 31 and 32,
 40.00 Set temp. $\frac{1}{4}$ sec. cor.
- 80.16 Intersect N. and S. line, 3 lks. S. of the cor.
 of sec. 28, 29, 32 and 33, hereinbefore described, thence I run,
 S 89° 58' W, on a true line, 31 and 32,
 Descend N.W. slope over rolling sandy land through
 scattering cedar, and pinon pine timber, and
 sage and greasewood brush undergrowth.
- 40.08 Set an iron post 3 ft. long, 1 in. in diam. 26 ins in
 the ground for $\frac{1}{4}$ sec. cor. marked on brass cap $\frac{1}{4}$ S 29

BOOK 2621

- on n. half and S 32. on S. half. from which.
 A cedar 6 ins. in diam bears $N 48 \frac{1}{2}^{\circ} W$ 151 lks. dist.
 marked $\frac{1}{4}$ 329 B.T. and
 A cedar 10 ins. in diam. bears $S 51 \frac{3}{4}^{\circ} W$ 258 lks.
 dist. marked $\frac{1}{4}$ 332 B.T.
- 45.20 Sand stone ledge 10 ft. high. bears N and S . bears
 rolling sandy land bears N . and S . Enter stony hilly
 land, due abruptly over W . slope
- 58.15 Dry ravine 30 lks. wide course north. asc. steeply
- 70.25 Top of sand ridge bears N and S . desc.
- 80.16 The cor. of sees. 29, 30, 31 and 32, hereinbefore described.
 Land rolling, and hilly.
 Soil sandy and stony 3^{rd} and 4^{th} rate.
 Timber pinon pine and cedar

- $S 89^{\circ} 59' W$. on a run down line, bet. sees. 30 and 31,
 40.00 Set temp. $\frac{1}{4}$ sec. cor.
- 78.40 Intersect W . ldy. of N .; 7 lks. S . of the cor. of
 sees. 25, 30, 31, and 36 recently estab. by line as described in
 Exterior Book "AS"; thence I run,
 $S 89^{\circ} 58' E$, on a true line, bet. sees. 30 and 31
 ascend W . slope over hilly sandy and stony land
 through scattering cedar and pinon pine timber
 and greasewood brush undergrowth.
- 300 Top of sand ridge bears N and S . desc.
- 11.90 Road to Tuba, Arizona bears $N 715^{\circ} W$. and $S 15^{\circ} E$.
- 38.40 Set an iron post 3 ft. long, 1 in. in diam. 26 ins. in
 the ground for $\frac{1}{4}$ sec. cor. marked on brass cap $\frac{1}{4}$
 $S 30$ on N . half and $S 31$ on S . half from which.
 A cedar 7 ins. in diam. bears $N 4^{\circ} E$ 106 lks. dist.
 marked $\frac{1}{4}$ S. 30 B.T. and

 Soil sandy and stony 3rd and 4th rate
 No tin bet.

January 6th 1912

General Description.

This township contains every variety of land
 from level to hilly and the soil ranges from
 clay to sandy loam. The soil of the narrow
 bottom land in the deep canyon in the western
 part of the township is a sandy loam capable
 of producing crops with the aid of irrigation
 The soil of the remaining portion of the township

can nearly all be classed as third and fourth rate, is covered with an abundant growth of bunch grass, but is not suitable for agricultural purposes on account of its sandy character.

Scattered groves of scrub cedar and pinon pine timber were found along the canyon in the western part of the township and near the southwest corner of the township.

No mineral was found in the township although I think that coal beds would be encountered at varying depths below the surface. The western portion of the township is underlain with beds of sand stone of a friable nature.

Two springs of fresh water were found in the township, one of which is located in sec. 7 and the other in sec. 4.

There is one Navajo Indian family living in sec. 28.

Jan L. White
U.S. Geologist

LIST OF NAMES.

A list of the names of the individuals employed by Van L. White

U.S. Transitman, ~~United States Deputy Surveyor~~, to assist in running, measuring, and marking the lines and corners described in the foregoing field notes of the survey of the Subdivision lines of Tp 31 N R 15 E. G. & S. R. B. & M. Arizona.
showing the respective capacities in which they acted:

- T. Y. White, Chainman.
- Richard L. Shumway and George B. Seig, Chainman.
- Ralph C. Sampson, Moundman.
- ~~Moundman.~~
- Nelson Polacca, Axman.
- ~~Axman.~~
- William R. Carson, Flagman.

FINAL OATH OF ASSISTANTS.

We hereby certify that we assisted Van L. White

U.S. Transitman, ~~United States Deputy Surveyor~~, in surveying all those parts or portions of the Subdivision lines of Tp 31 N R 15 E.

of the Gila and Salt River Basins Meridian, Territory of Arizona, which are represented in the foregoing field notes as having been surveyed by him and under his direction; and that said survey has been in all respects, to the best of our knowledge and belief, well and faithfully ~~surveyed~~ ^{executed}, and the corner monuments established, according to the instructions furnished by the ~~United States Surveyor~~

- ~~General for~~ Commissioner of the General Land Office
- George B. Seig and T. Y. White, Chainmen.
- Richard L. Shumway, Chainman.
- Ralph C. Sampson, Moundman.
- ~~Moundman.~~
- ~~Axman.~~
- Nelson Polacca, Axman.
- William R. Carson, Flagman.
