Subject: Federal Lands in California Map

DD:08/18/01

Historically, the Federal Lands in California map produced by Geographic Services was updated every ten years or so. With advancements in the use of Geographic Information Systems, updating the map can be done more frequently as the need for new maps arises.

Geographic Services plans to revise the 1999 edition of the Federal Lands in California map. We are requesting input from the field offices. In reference to the map, are there any place names that should be added, or deleted? Please make corrections on the existing 1999 edition, and forward to Geographic Services, California State office. We need your response by August 18, 2001. For more information please contact Bill Ming at 916- 978 4313.
