

## List of Typical Projects Using Trespass Funds

- Fencing and installing locked gates at a community pit.
- Demolition and rehabilitation of an abandoned shooting range.
- Administrative costs incurred in investigating and settling a realty or mineral trespass.
- Slope stabilization and revegetation of a mineral materials trespass site when collected funds are not sufficient.
- Seeding, road rehabilitation, ripping or closure to mitigate a road trespass.
- Removal, disposal and site rehabilitation of a building, structure or facility trespass.
- Processing a land sale or land authorization as a result of a trespass.
