

# All Systems Geographic Supplemental Report

**Menu Option:** Pub All Systems Geo Supp Report.

**Purpose:** This report is an historical summary of select case transactions (action code driven). This report should not be construed to be an automated Historical Index (HI).

The report prints cases in the selected township and shows the following information: section, aliquot, survey type, survey number, case acres for case recordation cases, total acres in the township for status cases, system id, serial number, reference number, action date and action.

**Selection Criteria:** Cases are selected if they have land within the township, are in Case Recordation or Status and have one of the required actions (see table below) and are not oil/gas agreements (318XXX).

Selection is based on MTR or a combination Geo State and Meridian/Township/Ranges. Required criteria include Meridian, Township and Range. Geo State is an optional criteria selection.

Cases are selected if they:

- Have land within the township.
- Are in the HI System.
- Are in the Status System and have one of the required actions shown in the Status Table below.
- Are in Case Recordation and have one of the required actions (see table below), the casetype does not begin with 36, 3802, 3809, or 381402, 381410, and the section number does not begin with 7.

**MANDATORY CRITERIA**

Set Geo State

Set Meridian Township Range

Run Report    Reset

**Note:** To change criteria selection, click Return to Criteria Selection.

**TIP:** To select multiple values for a criterion, enter each code separated by a comma in the text field or use the ALT or Shift key and select multiple items in the list box. Click Close or

click Set for another criterion to retain the search criteria.

**Identify the Required Information:**

4. Click **Set** for **Geo State** to specify a state. Type the two letter state code in the edit field or select it from the list.
5. Click **Set** for **Meridian Township Range or Meridian Township Range Section**. There are two options for entering the legal descriptions. Option one is the easiest method to use.

**Option 1 for setting Meridian Township Range or Meridian Township Range Section**

Click on the Arrow next to Meridian and select meridian code.

Click in township and enter the township number.

Click on the arrow for direction and click North or South as applicable.

Click in the Range and enter the range number.

Click on the arrow for direction and select East or West as applicable.

Click on the Section and enter the section number.

Click on Add to MTR List.

You can add more legal descriptions by double clicking in the applicable fields typing in the new description and clicking Add to MTR List.

## Option 2 for setting MERIDIAN TOWNSHIP RANGE AND SECTION

Click **Set** for **Meridian Township RANGE** or **Meridian Township Range Section**

Setting the values for these criteria is basically the same for each except that MTRS also includes the section code.

Enter the exact code for the meridian, township, range, and section (if applicable) and click the arrow to place it in the selection box. Enter as many codes as desired. Click **Select All** to use all codes as criteria.

**MTR** must be entered as:

2 digits for Meridian Space 5 digits for Township Space 5 digits for Range.  
For example to enter T1N, R1E in Idaho, you would enter 08 0010N 0010E.

**MTRS** must be entered as:

2 digits for Meridian Space 5 digits for Township Space 5 digits for Range Space 3 digits for section.

For example to enter T1N, R1E, section 1, in Idaho, you would enter 08 0010N 0010E 001.

**Process Report:**

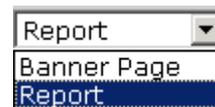

6. With all criteria selected, click **Run Report**.
7. Click **OK** to confirm the report criteria.

If all required criteria have not been identified, a message specifies the criteria that must be set. Click OK, identify criteria values and run the report again.

When processing has completed, the Report displays.
