Public use restrictions, fire precaution level on the rise

HINES, Ore. – Continuous hot, dry temperatures and the increased risk of wildfire have prompted Federal officials to raise the Industrial Fire Precaution Level (IFPL) and tighten public use restrictions within the Burns Interagency Fire Zone (BIFZ).

Effective Thursday, July 10, the IFPL will move from one to two, Partial Hootowl. Under IFPL two, personal woodcutters may only use power saws between the hours of 8 p.m. and 1 p.m., local time. A one-hour fire watch is required after saw operations cease and saw operators are required to have an axe, shovel, and fire extinguisher in their possession and on site.

In addition to the increased IFPL, the following are prohibited on all Bureau of Land Management (BLM)-administered lands within the BIFZ:

1. Building, maintaining, attending, or using a fire, campfire or stove fire, including charcoal briquette fire, except at Chickahominy, Page Springs, Jackman Park, Fish Lake, and South Steens Campgrounds. Liquefied and bottled gas stoves and heaters are permitted. When used outside of developed recreation sites, stoves and heaters must be used within an area at least 10 feet in diameter that is barren or clear of all flammable material.
2. Smoking outside of a vehicle, trailer or building, except within areas barren of all flammable materials for at least a 3-foot diameter, or on boats on rivers and lakes.
3. Operating any type of motorized vehicle without a shovel and a container with at least 1-gallon of water, or a fully charged 2.5-pound fire extinguisher.
4. Operating any type of motorized vehicle off existing roadways or parking vehicles on roadways not clear of all flammable materials, berm to berm.

Visitors should use extreme caution when visiting public lands this time of year. Ignition of fireworks on all public land is always prohibited. For a map of the restricted use area, please visit the Burns District BLM office at 28910 Hwy 20 West in Hines.

Fire danger is currently rated **HIGH**. The public use restrictions within the BIFZ remain in effect until further notice. **To report a wildfire, call 573-1000.**

The BLM manages more than 245 million acres of public land, the most of any Federal agency. This land, known as the National System of Public Lands, is primarily located in 12 Western states, including Alaska. The BLM also administers 700 million acres of sub-surface mineral estate throughout the nation. The BLM's mission is to manage and conserve the public lands for the use and enjoyment of present and future generations under our mandate of multiple-use and sustained yield. In Fiscal Year 2013, the BLM generated \$4.7 billion in receipts from public lands.
