BLM plans summer and fall road maintenance

HINES, Ore. –The U.S. Bureau of Land Management (BLM) announces plans for summer/fall maintenance on several roads in the Burns District. The following roads will receive intermittent work where needed to repair and/or prevent road and resource damage resulting from weather conditions:

- Stonehouse Road
- Smyth Ranch Road
- Kern Reservoir Road
- Dust Bowl-Willow Spring Road
- Approximately 1 mile of unnamed road segments
- Moon Hill Road
- Ruby Loop Road

Repairs and maintenance on these roads are necessary to support implementation of the Moon Hill prescribed fire project. For further information on road maintenance activities in the Burns District, or to view a general vicinity map, call the BLM at (541) 573-4400 or visit the BLM office at 28910 Hwy 20 West in Hines.

The BLM manages more than 245 million acres of public land, the most of any Federal agency. This land, known as the National System of Public Lands, is primarily located in 12 Western states, including Alaska. The BLM also administers 700 million acres of sub-surface mineral estate throughout the nation. The BLM's multiple-use mission is to sustain the health, diversity, and productivity of the public lands for the use and enjoyment of present and future generations. In Fiscal Year 2012, activities on public lands generated \$4.6 billion in revenue, much of which was shared with the States where the activities occurred. In addition, public lands contributed more than \$112 billion to the U.S. economy and helped support more than 500,000 jobs.
