Maintenance planned for Stonehouse road

HINES, Ore. – The U.S. Bureau of Land Management (BLM) Burns District announces plans for maintenance on the Stonehouse road in the Steens Mountain Cooperative Management and Protection Area.

The road will receive intermittent maintenance work where needed to repair and/or prevent road surface and resource damage resulting from wet weather conditions and fire management activities. The repairs and maintenance are necessary to support multiple-use resource management and ensure hazard-free public access.

For further information on road maintenance activities in the Burns District, or to view a general vicinity map, call the BLM at (541) 573-4400 or visit the BLM office at 28910 Hwy 20 West in Hines.

The BLM manages more than 245 million acres of public land, the most of any Federal agency. This land, known as the National System of Public Lands, is primarily located in 12 Western states, including Alaska. The BLM also administers 700 million acres of sub-surface mineral estate throughout the nation. The BLM's mission is to manage and conserve the public lands for the use and enjoyment of present and future generations under our mandate of multiple-use and sustained yield. In Fiscal Year 2014, the BLM generated \$5.2 billion in receipts from public lands.
